

# filosofia

\* 10º ANO \*

• A filosofia põe em causa as nossas crenças, ou seja, levanta problemas fundamentais acerca daquilo que acreditamos.

= crença básica → crença cuja verdade depende da verdade de outras crenças. (liberdade e responsabilidade → crenças básicas)

## Caracterização da filosofia:

• A discussão e análise de ideias, crenças ou convicções que todos temos, mas que muitas vezes não submetemos a exame crítico.

• Pode mudar as nossas vidas por também mudar as nossas crenças / maneiras de pensar, pois ao refletir sobre elas pode levar-nos à conclusão de que algumas não têm justificação.

• A filosofia tem um papel fundamental na orientação do Homem no mundo (dimensão prática).

A Filosofia pode mudar o rumo das nossas vidas, porque pode alterar as nossas crenças quando nos mostra não terem qualquer justificação.

① crítica =  
análise,  
avaliação,  
posição pessoal

= crítica → análise que possibilita um posicionamento pessoal sobre as outras coisas

= empírica → vem da empiria que significa experiência sensível (através dos nossos sentidos).

Aristóteles } filósofos da Antiguidade  
Platão }  
Sócrates }

## Características dos problemas filosóficos:

• Os problemas da filosofia são problemas não empíricos, ou seja, não têm solução empírica através do recurso à experiência ou à experimentação. Nesse caso, os problemas da filosofia são de solução conceptual tendo a resposta através da razão.

→ problemas conceptuais não precisam de uma experiência para terem solução, pois a partir da laboratório da mente sintetiza-se uma resposta racional.
