INTRODUCTION TO FINANCIAL STATEMENT ANALYSIS

Learning Outcome	Describe the roles of financial reporting and financial statement analysis.
A	
Role of Financial Reporting	The role of financial reporting is to <u>provide information</u> about the performance and financial position of companies so that users can make economic decisions.
Role of Financial Statement Analysis	The primary role of financial statement analysis is to <u>use financial reports</u> prepared by companies to <u>evaluate their past, current, and potential performance and financial position</u> for the purpose of making investment, credit, and other economic decisions.

Practice Problems: Q1, Q2 & Q3

Learning Outcome	Describe the roles of the statement of financial position, statement of comprehensive income, statement of changes in equity, and statement of cash flows in evaluating a company's performance and financial position.
B	
Role of Balance Sheet	<ol style="list-style-type: none"> 1. The balance sheet discloses <u>financial position of a company</u> i.e. what resources a company controls (assets) and what it owes (liabilities) at a specific point in time. 2. <u>Owners' equity</u> represents the net assets of the company; it is the owners' residual interest in, or <u>residual claim on</u>, the company's assets after deducting its liabilities. 3. The relationship among the three parts of the balance sheet (assets, liabilities, and owners' equity) may be shown in equation form as follows: Assets = Liabilities + Owners' equity
Role of Income Statement	The income statement presents information on the <u>financial results of a company</u> over a period of time.
Role of Statement of Comprehensive Income	The statement of comprehensive income includes <u>all items that change owners' equity</u> except transactions with owners (e.g., issuing stock, repurchasing stock, and paying dividends). Note: The income statement can be combined with "other comprehensive income" and presented as a single statement of comprehensive income. Alternatively, the income statement and the statement of comprehensive income can be presented separately.
Role of Statement of Changes in Equity	The statement of changes in equity provides <u>information about increases or decreases in the various components of owners' equity</u>
Role of Statement of Cash Flows	The statement of cash flows reports the company's <u>cash receipts and payments</u> .
