Teaching and Learning for Change Ingrid Schudel, Zintle Songqwaru, Sirkka Tshiningayamwe, Heila Lotz-Sisitka, 2021 Like many national curricula around the world South Africa's curriculum is rich in environment and sustainability content Despite this environmental teaching and learning can be challenging for educators This comes at a time when Sustainable Development Goal 4 via Target 4.7 requires governments to integrate Education for Sustainable Development into national education systems Teaching and Learning for Change is an exploration of how teachers and teacher educators engage environment and sustainability content knowledge methods and assessment practices an exposition of quality education processes in support of ecological and social justice and sustainability The chapters evolve from a ten year research programme led out of the DSI NRF SARChI Chair in Global Change and Social Learning Systems working with national partners in the Fundisa for Change programme and the UNESCO Sustainability Starts with Teachers programme They show the integration of education for sustainable development in teacher professional development and curricula in schools in South Africa They reveal how university based researchers teachers and teacher educators have made theoretically and contextually reasoned choices about their lives and their teaching in response to calls for a more sustainable world in which education must play a role Teaching and Learning for Change will be of interest to education policymakers in government advisors and educators in educational and environmental departments NGOs and other institutions It will also be of interest to teacher educators teachers and researchers in education more generally and environment and sustainability education specifically

Business Studies Alex Pinnock, 2014

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience
