Financial Statement Analysis Valuation Easton Solutions:

Valuation Using Financial Statements Gregory Sommers, Peter Easton, Phil Drake, 2024-12-15 Firm, Equity Asset, and Fixed Income Securities Valuation Vusani Moyo, 2024-08-12 This textbook begins by introducing the concept of the time value of money and explaining how it is applied in valuation. It then uses practical and easy-to-understand examples to illustrate the application of the time value of money concept in valuing cash flows, annuities, and perpetuities. This is followed by an in-depth discussion of the firm's financing sources and the determination of its cost of capital. The remainder of the textbook discusses the valuation of fixed income securities, equity assets, and the firm, featuring specific examples and case studies from South Africa, Europe, and the Americas. Equity asset and firm valuation approaches discussed include variants of single and multiple stage growth, dividend discount models, free cash flows, residual income, and multiple valuation approaches. The practical examples and case studies equip students with the tools they need to apply these valuation approaches. Aimed at upper undergraduate and postgraduate accounting and finance students, this textbook discusses in which context each valuation approach is most appropriate. Electronic supplementary materials are available online by chapter. **Financial Statement Analysis & Valuation**, 2010. Incorporates real company data throughout each module to reinforce important concepts and engage students. Teaches students how to read, analyze, and interpret financial statements, footnotes, and nonfinancial disclosures for business decisions, including profitability and credit risk analysis. Derived from book cover.

Important enhancements unique to the fifth edition: all 99 cases involve real-life deals made or announced within the last five years; extensive discussions of all current valuation techniques and their strengths and weaknesses; cross-border transactions analyzed and explained in detail; tax and legal issues covered comprehensively. Focuses on the REAL WORLD, not just theory. The 99 case studies span every industry and dozens of countries and show how deals are done rather than just the theory behind them. All cases fully updated for this edition. Cases all involve transactions that have occurred or been announced within the past 3-5 years. Extensive updating and enhanced content provided on reorganization, bankruptcy, and liquidation issues, both inside and outside of bankruptcy court.
