*Directions:* Read the passage. Then answer the questions below.

## Summer Rain

The worst days of any summer are the rainy ones. We spend all year looking forward to nice weather and long, hot days. All of winter, with its dreary gray days and bitter cold, we dream of those endless days at the beach, laying on the sand and soaking in the bright and burning sun. And then, summer comes, and it rains.

As a child, I would wake up to rainy summer days and come close to crying. It wasn't fair. We suffered through months of school and miserable weather for those scant ten weeks of freedom and balmy weather. Any day that I could not spend at the beach or playing ball with my friends seemed like a punishment for something I didn't even do.

On those rainy summer days, I had nothing fun to do and could only sit inside, staring out at the rain like a Dickensian orphan. I was an only child, so there was no one else to play with. My father worked from home, so I was not truly alone, but he could not actively play with me since he was technically at work. It was those days that I would resign myself to whatever was on television or any books that I could find lying around. I'd crawl through the day and pray each night that the rain would not be there the next day.

As an adult, though, my opinion of summer rain has changed. When you have to work every day, summer is not as eagerly anticipated. Mostly, the days run together, bleeding into each other so that they no longer seem like separate entities and instead feel like continuations of the same long day. Everything seems monotonous and dull, and an ennui or listlessness kicks in. Such a mindset makes you cheer for anything new or different. I spend the winter dreaming of summer and the summer dreaming of winter. When summer comes, I complain about how hot it is. And then I look forward to the rain, because the rain brings with it a cold front, which offers a **reprieve**—admittedly one that is all too short—from the torture of 100° and humid days. Rainy days are still the worst days of the summer, but summer rain today means positively beautiful—and considerably cooler—weather tomorrow.

web question i using the phet simulation 1 open gas properties simulation choose laws 2 pump in blue gas molecules into the container 3 wait a minute for the particles to disperse then record the temperature and pressure include units ti pi 4 given that this is 50 particles how many moles of gas are present show your work 5

**phet gas properties chemistry libretexts** - Jul 11 2023

web pump gas molecules to a box and see what happens as you change the volume add or remove heat change gravity and more measure the temperature and pressure and discover how the properties of the

**phet gas properties simulation activity answers download only** - May 29 2022

web phet gas properties simulation activity answers oil spill occurrence simulation and behavior jan 14 2020 oil spill occurrence simulation and behavior provides practical insight into oil spills and their causes impacts response and cleanup methods simple and advanced modeling of oil spill behavior and oil spill simulation techniques

gas properties phet flashcards quizlet - Mar 07 2023

web pressure force per unit area boyle s law a principle that describes the relationship between the pressure and volume of a gas at constant temperature

*gas properties simulation activity worksheet studypool* - Sep 01 2022

web gas properties simulation activity in this activity you ll use the gas properties phet simulation to explore and explain the relationships between energy pressure volume temperature particle mass number and speed

phet gas law simulation answers 2 pdf course hero - Jul 31 2022

web phet gas law simulation lab answers phet gas properties worksheet answers phet gas properties worksheet answers free printables gas laws simulation lab description this activity adapts the states of matter basics sim to teach the ideal gas laws

*gas properties simulation activity answer key tutorsonspot* - Jun 29 2022

web apr 1 2021 gas properties simulation activity in this activity you ll use the gas properties phet simulation phet colorado edu en simulation gas properties to explore and explain the relationships between energy pressure volume temperature particle mass number and speed

solved in this activity you ll use the gas properties phet - Jan 05 2023

web chemistry questions and answers in this activity you ll use the gas properties phet simulation to explore and explain the relationships between energy pressure volume temperature particle mass number and speed

*ideal gas law simulation youtube* - Feb 06 2023

web this video is a quick introduction to the phet simulation for an ideal gas the simulator can be found at phet colorado edu sims html gas properties

**phet gas properties simulation aurum science** - Dec 04 2022

web this module from phet provides interactive simulations of each of the three gas laws boyle s charles and amonton s students will experiment with each simulation and deduce the type of relationship present between pressure and volume pressure and temperature and volume and temperature

**gas properties ideal gas law phet interactive simulations** - Oct 14 2023

web measure the temperature and pressure and discover how the properties of the gas vary in relation to each other examine kinetic energy and speed histograms for light and heavy particles explore diffusion and determine how concentration temperature mass and radius affect the rate of diffusion

*gas properties gas heat thermodynamics phet interactive simulations* - Aug 12 2023

web translate this sim related simulations balloons buoyancy states of matter states of matter basics software requirements credits pump gas molecules to a box and see what happens as you change the volume add or remove heat change gravity and more

**gas properties modular homework activity phet contribution** - Jun 10 2023

web may 6 2013 this activity has 5 modules explore the simulation kinetic energy and speed kinetic molecular theory of gases relationships between gas variables pressure and mixtures of gases after exploring the simulation students can do the other modules in any order subject chemistry

**gases intro ideal gas law phet interactive simulations** - Apr 27 2022

web measure the temperature and pressure and discover how the properties of the gas vary in relation to each other pump gas molecules to a box and see what happens as you change the volume add or remove heat and more

**gas properties simulation phet contribution** - Feb 23 2022

web dec 3 2019 gas properties simulation description this is a guided inquiry lab in which students explore the relationships between pressure temperature volume and rates of diffusion students explore the relationships between volume and pressure temperature and kinetic energy amount of matter and pressure and temperature and pressure

*virtual lab activity on gas properties phet contribution* - Mar 27 2022

web mar 4 2022 the virtual lab activity on gas properties aims to describe the relationships of the different gas properties such as pressure volume temperature and amount of a substance to each other subject

phet simulation gas properties aapt - Apr 08 2023

web aug 18 2016 this simulation provides an interactive simulation of an ideal gas users can change the number of gas molecules in a chamber change the volume add remove heat and change gravity users can explore the relationship between changes in kinetic energy of the gas molecules and heat
