agora pulse

The screenshot displays an AI writing assistant interface. At the top, there are several tone filter buttons: 'Funny', 'No filter', and 'Serious'. Below these is a text input field containing the question: "What is the difference between a home's appraised and market value?". To the left of the text area are two icons: a red 'X' labeled 'Cathy' and a blue checkmark labeled 'Balanced'. Below the text area, there are three response options, each with a tone filter icon: 'Engaging', 'Inspirational' (highlighted in blue), and 'Assertive'. A 'Functional' filter is also visible at the bottom. The selected 'Inspirational' response reads: "Appraised value refers to the objective value of a home assigned by a licensed appraiser. Market value is the price that the average buyer is willing to pay for a property and is a subjective number. These numbers should be similar, but if not, you can contest. Appraised value is based on market for a second opinion."
