Introduction To English Linguistics Gilak

Rudolph C. Troike

Introduction To English Linguistics Gilak:

Introduction to English Linguistics Ingo Plag, Maria Braun, Sabine Lappe, Mareile Schramm, 2011-12-22 The book introduces beginning university students of English to the study of English linguistics The major difference between this book and its potential competitors lies in its hands on didactic orientation with a strong focus on linguistic analysis and argumentation Language and linguistic theory are approached from a strictly empirical perspective given a certain set of data to be accounted for certain theoretical and methodological problems must be solved in order to analyze and understand the data properly Thus the theoretical apparatus is crucially developed in conversation with the data and not presented as a set of given facts After having worked with the book the students should be able to use necessary methodological tools to obtain relevant data such as corpora dictionaries experiments and to systematically analyze their data and relate their findings to theoretical problems The book is not written from the perspective of a particular theoretical framework and draws on insights from various research traditions *Introduction to English Linguistics* concentrates on gaining expertise and analytical skills in the traditional core areas of linguistics i e phonology morphology syntax semantics and pragmatics The final chapter on Extensions and applications widens the perspective to other areas of linguistic research such as historical socio and psycholinguistics Exercises and a glossary are also provided

Introducing English Linguistics Charles F. Meyer, 2009-05-14 Are you looking for a genuine introduction to the linguistics of English that provides a broad overview of the subject that sustains students interest and avoids excessive detail *Introducing English Linguistics* accomplishes this goal in two ways First it takes a top down approach to language beginning with the largest unit of linguistic structure the text and working its way down through successively smaller structures sentences words and finally speech sounds The advantage of presenting language this way is that students are first given the larger picture they study language in context and then see how the smaller pieces of language are a consequence of the larger goals of linguistic communication Second the book does not contain invented examples as is the case with most comparable texts but instead takes its sample materials from the major computerised databases of spoken and written English giving students a more realistic view of language

Pacific Linguistics, 1980

Linguistics and English Literature H. D. Adamson, 2019-04-04 This undergraduate textbook introduces English literature students to the application of linguistics to literary analysis

Critical Pedagogies for Modern Languages Education Derek Hird, 2023-07-13 In the context of Black Lives Matter decolonizing initiatives MeToo climate emergency protests and other movements for social and environmental justice this volume posits a simple question how can modern languages be taught so that they challenge rather than reinforce social inequalities Informed by interdisciplinary theories *Critical Pedagogies for Modern Language Education* focuses on practical discussions of case studies in areas directly relevant to the classroom contexts of modern languages educators The volume transforms modern language educators and the modern language profession by putting the politics of language teaching at the centre of its analysis With case studies

covering 11 languages Modern Standard Arabic Dutch English French German Levantine Mandarin Portuguese Spanish Swedish Tamazight across 13 countries and regions Austria Brazil China France Italy the Levant Morocco the Netherlands Palestine Spain Sweden the UK and the USA the contributors cover a wide range of theories including critical discourse analysis activist pedagogies culturally sustaining pedagogy linguistic justice and translanguaging With student teacher collaboration at its heart critical modern languages pedagogy unmasks the ideologies and hegemonies that lie behind mainstream language use and affirms the value of minority linguistic and cultural practices The volume thus provides transformative approaches to modern languages teaching and learning that respond to the key social concerns of the 21st century

Linguistics Andrew Radford, Martin Atkinson, David Britain, Harald Clahsen, Andrew Spencer, 2009-02-12 Written by a team based at one of the world's leading centres for linguistic teaching and research the second edition of this highly successful textbook offers a unified approach to language viewed from a range of perspectives essential for students understanding of the subject Using clear explanations throughout the book is divided into three main sections sounds words and sentences In each the foundational concepts are introduced along with their application to the fields of child language acquisition psycholinguistics language disorders and sociolinguistics giving the book a unique yet simple structure that helps students to engage with the subject more easily than other textbooks on the market This edition includes a completely new section on sentence use including an introduction and discussion of core areas of pragmatics and conversational analysis coverage of sociolinguistic topics introducing communities of practice a wealth of new exercise material and updated further reading

[Linguistics for Everyone: An Introduction](#) Kristin Denham, Anne Lobeck, 2009-03-06 LINGUISTICS FOR EVERYONE AN INTRODUCTION First Edition is designed to capture the interest of all students regardless of major and offer them a thorough engaging introduction to the science of language To achieve this goal they devised a unique arrangement of chapters that distinguishes this book from conventional introductory linguistics textbooks Without sacrificing rigor they focus on larger themes rather than on technical details or formal analysis The book opens with a strong introductory chapter addressing basics such as how to define language prescriptive versus descriptive grammar differences between the human language system and other animal communication systems and so on The second chapter devoted to language mind and brain addresses both psycholinguistic and neurolinguistic evidence for humans innate capacity for language To address core linguistics areas in depth there are two chapters each on phonetics and phonology morphology syntax and semantics Throughout the text special features relate the study of linguistics to the language we use in the real world and every chapter includes innovative and varied activities that review and practice the content and offer your students many opportunities to apply the knowledge in their own lives Important Notice Media content referenced within the product description or the product text may not be available in the ebook version

English Linguistics Christian Mair, 2015-10-28 English Linguistics is a compact and easy to use introduction to English linguistics which is tailored to the needs of students of English at

German Austrian and Swiss universities contains graded exercises to motivate students to carry out independent research and bridges the gap between linguistics and the literary and cultural studies components of the typical BA in English Studies

Bachelor wissen English Linguistics goes beyond the usual introduction in offering accompanying web resources which provide additional material and multi media illustration
