Music Theory For Producers:

Music Theory for Electronic Music Producers J. Allen, 2018-10-13 The producer's guide to harmony chord progressions and song structure in the MIDI grid As an online class Dr Allen has had over 50 000 students use this groundbreaking curriculum to learn music theory Students and Producers who have wanted to learn music theory to improve their own music but have been intimidated by traditional approaches music notation and abstract concepts will find this book to be the answer they have been looking for From the Author How music theory is usually taught is unfair It starts with the assumption that you can read music and understand the language of classical music My book leaves all of that behind focusing only on the MIDI grid that producers are already familiar with to learn all the key concepts of music theory and ultimately make better music This book covers all the fundamentals of music theory but is written using the language of the DJ and Producer the MIDI Grid It includes analysis projects that look at the harmonic and melodic ideas in songs by popular producers including Zedd Boards of Canada Daft Punk Deadmau5 Bonobo Richie Hawtin Moby Skrillex and Aphex Twin Praise for Music Theory for Electronic Music Producers Aspiring electronic musicians have choices to make when it concerns their own education and training This text makes one choice much easier start here and get learning quickly Grounded and easygoing the book uses real world examples to help you make sense of music's inner workings while steering clear of dense theories Michael J Ethen PhD Musicologist This book knocks the oftentimes alienating world of music theory completely onto its side Difficult to explain concepts are perfectly demonstrated for the aspiring electronic music producer who might have no formal music training A must have for all aspiring producers James Patrick DJ Producer Educator Slam Academy Dubspot IPR Ableton Certified Trainer With Music Theory for Electronic Music Producers Dr Allen has produced a remarkable resource an extensive tour of musical theory that leverages some of our favorite modern tools the virtual studio and its piano roll note display By introducing us to the why as well as the what of music theory this book helps us to understand what makes music tick and how to improve our own work In addition to offering a sound theoretical foundation the deep dives into analyzing tracks by Skrillex Aphex Twin and Deadmau5 keeps our attention focused on real world production MTEMP will definitely go on the top of my recommendation list for anyone that needs a fresh view of musical concepts Darwin Grosse Director of Education Cycling 74

[Music Theory for Producers](#) Siberius Jackson, 2014-05-06 I wrote Music Theory for Producers because as a producer I didn't feel that there were any books on music theory that were designed specifically for my needs Producers are an interesting group they aren't just musicians and they aren't just engineers They have to have a little bit of everything to get the job done This guide is a no frills look at music theory that skips the less important details and goes straight to the essential information You'll learn about rhythm harmony and melody including building chord progressions and writing instrumental hooks The best part about this book is the song analyses For every section there are several songs that are broken down in terms of the chapter topic With this guide you'll learn the theory behind Elevators
