This volume presents the proceedings of an international workshop on the processing of declarative knowledge

The workshop was organized and hosted by the German Research Center for Artificial Intelligence DFKI in cooperation with the Association for Logic Programming ALP and the Gesellschaft für Informatik GI

Knowledge is often represented using definite clauses rules constraints functions conceptual graphs and related formalisms

The workshop addressed such high level representations and their efficient implementation required for declarative knowledge bases

Many of the papers treat representation methods mainly concept languages and many treat implementation methods such as transformation techniques and WAM like abstract machines

Several papers describe implemented knowledge processing systems

The competition between procedural and declarative paradigms was discussed in a panel session and position statements of the panelists are included in the volume
