

SETTING

Emergency department

PATIENT

You are an 18 year old female with undiagnosed anorexia nervosa who has self presented to an emergency department due to severe heart palpitations which you've never had before. Initially the doctors give you some heart drugs to slow your heart back to a normal rhythm but they also now have an intravenous drip connected to you which you are very anxious about and don't understand. Generally you are very defensive and angry in your interactions with staff and are in denial about having anorexia nervosa or any mental health problems.

TASK

- Ask the nurse about why you have a drip running and express fear that it might harm you in some way.
- When the nurse tries to make conversation with you about your eating habits, initially answer some of his/her questions, but fairly quickly become defensive & angrily ask why it's their business to know about your personal habits.
- When the nurse tells you a psychiatric doctor will come to see you, become angry again, protesting that these doctors are only for crazy people and that there is nothing wrong with your mind. Calm down only when the nurse persuades you that that your eating behaviour is now causing very serious problems in your life.

SETTING

Emergency department

NURSE

An eighteen year old female with undiagnosed anorexia nervosa has presented to your emergency department with an abnormal heart rhythm caused by her poor nutritional status. Cardiac treatment has stabilised her heart but she is still currently receiving a potassium infusion via a drip to prevent further such problems. Other than when she wants you to explain treatment to her, she is defensive and angry to communicate with and in denial that she has any kind of eating disorder or mental health issues.

TASK

- Reassuringly answer her anxious questions about the intravenous drip being given to stabilise her electrolytes.
- Tactfully ask her about her eating habits and food intake, emphasising your therapeutic aims for asking these questions.
- Advise her that a mental health doctor will come to see her soon and, when she becomes angry about having to see a doctor for crazy people, try to persuade her of the importance of dealing with her mental health/eating issues to prevent such life threatening hospital admissions.

Medical English as a Lingua Franca M. Gregory Tweedie, Robert C. Johnson, 2022-02-21 In this first book length treatment of MELF the authors assert that MELF represents an important contribution to our understanding of English as a Lingua Franca ELF in that existing ELF research has been limited to relatively low stakes communicative situations such as interactions in business academia internet blogging or casual conversations Medical contexts in contrast often represent situations calling for exceptional communicative precision and urgency Providing both evidence from their own research and analysis from the limited number of existing studies the authors offer a counterpoint to the optimism regarding communicative success prevalent in ELF The book proposes a theoretical perspective on how the various features of healthcare communication serve as important variables in shaping interaction among speakers of ELF further enlarging our understanding of this emerging sub field

Inpatient Obstetric Nurse Exam Practice Questions: Inpatient Obstetric Practice Tests & Exam Review for the Inpatient Obstetric Nurse Exam Obstetric Exam Secrets Test P Inpatient,2018-04-12 Inpatient Obstetric Nurse Exam Practice Questions are the simplest way to prepare for the Inpatient Obstetric Nurse Exam Practice is

an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. If someone has never taken a practice test, then they are unprepared for the types of questions and answer choices that they will encounter on the official test. There is a tremendous advantage to someone taking the test that is already familiar with the questions and answer choices. Another advantage of taking practice tests is that you can assess your performance and see if you need to study and practice more or if you're already prepared enough to achieve success on your test day. If you do well on the practice test, then you know you're prepared. If you struggle on the practice test, then you know you may still have more work to do to get prepared. Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day. Our Inpatient Obstetric Nurse Exam Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test, and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success, and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious, but you have to know which questions you missed and, more importantly, why you missed them to be able to avoid making the same mistakes again when you take the real test. That's why our practice questions include answer keys with detailed answer explanations. These in-depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand.

The OET Nursing Voice: Mastering Patient Conversations with Confidence : Advanced Role-Play Scenarios and Essential Insights for Band A Speaking Performance Jobin Thomas, 2025-07-06
