CHAPTER 5

Stakeholder Analysis and Communication Planning

LEARNING OBJECTIVES

This chapter introduces the need for and the methods of both stakeholder analysis and communication planning. After completing this chapter, each student should be able to perform the following:

1. Enumerate, describe, and prioritize each set of stakeholders for a project.
2. Tell how to build project relationships and why they are important for communications.
3. Enumerate each section of a project communications plan and describe the role each plays.
4. Develop a project communications management plan for a real project.
5. Plan, conduct, and improve project meetings.
6. Describe communication challenges of virtual and global project teams.

TEACHING STRATEGIES

- An interesting Segway between chapters 4 and 5 is the introductory essay. Arthur Shelly has developed the organizational zoo. Using this or another instrument like StrengthsFinders from Gallup can give the students more understanding of themselves, their team, and their stakeholders. Students may enjoy creating their own profiles now
