& McGregor on Damages* John Dawson Mayne,Harvey McGregor,1966 Treatise on Damages. Mayne and McGregor on
Damages John Dawson MAYNE,1961 **Delivery of Goods under Bills of Lading** Anders Møllmann,2016-12-01 Probably
the core characteristic of a bill of lading is that the original bill of lading must be presented at the port of destination for a
consignee to be entitled to delivery of the goods and for the carrier to get a good discharge of its delivery obligation by
delivering the goods to said consignee This notion is accepted virtually worldwide but the more precise content of the
presentation rule differs from jurisdiction to jurisdiction Furthermore and of importance the legal basis establishing the
presentation rule differs With the technological advances in maritime transport as well as in communications technology and
the emergence of more complicated trading patterns a system where a specific tangible piece of paper issued at the port of
loading has to be presented at the port of discharge to obtain delivery of the goods seems almost archaic and can obviously
create problems Thus in practice very often especially in some trades such as the oil trade the bill of lading is not available at
the port of discharge when the ship is ready to deliver the cargo The book will first analyse the presentation rule its finer
contents and its legal basis It will then go on with legal analyses of three developments and responses to the problems that
the bill of lading system gives rise to in practice viz the commercial the international legislature s and the technological
response The commercial response analysed here consists of contractual exemption or limitation clauses in the bill of lading
set up as a defence against claims for misdelivery The international legislature s response denotes the adoption of the
Rotterdam Rules which as the first international convention on carriage of goods by sea includes elaborate rules on delivery
of the goods Finally the technological response denotes the possibility of using electronic equivalents of bills of lading The
analyses will include a comparative approach examining both English and Scandinavian law to elucidate the issues with
greater clarity **The Passing-On Problem in Damages and Restitution under EU Law** Magnus Strand,2017-01-27
Passing on occurs when harm or loss incurred by a business is passed on to burden that business s customers or the next
level of the supply chain In this authoritative book Magnus Strand provides the first comprehensive examination of passing
on in EU law damages and restitution The analysis covers a broad range of contexts including competition damages and the
repayment of charges **The Irish Jurist, Together with the Irish Jurist Reports** ,1964 **Litigating**
