How to decipher a Venn diagram:

- When there are numbers in the venn diagram, the numbers in each circle do not include the number in the overlapping region ( athletes not under 30 are 22 and athletes under 30 are 15), they are two separate entities.
- Any numbers outside all circles in the venn diagram mean that is how many are not members of either set (there were 28 people at the party that were athletes or under 30)

- Depending on the rows and columns, it tells you which numbers are disjoint and which ones overlap
