Introduction

This tutorial is designed to give you a basic understanding of Adobe PageMaker. The handout is designed for first-time users and will cover a few important basics. This handout walks you through creating a report containing graphic images in PageMaker.

To open PageMaker in the Open Access Labs go to:

Start ► Programs ► Applications ► Graphics ► Adobe PageMaker

After becoming familiar with PageMaker we can always choose one of the templates to create our publication. Close the templates-options screen by clicking on the **Close** button located on the top right corner of the screen.

Go to: **File ► New**. A dialogue box showing the **Document Setup** similar to Figure 1 will appear. Here we can specify the page dimensions, orientation, margins, number of the pages etc. Set the inside margin to "1", all other margins to ".75" and the page size to "Letter".

When done, click **OK**. We can return to this window by clicking on: **File ► Document Setup**, and change or modify any of the settings at a later stage. We now have a new document open in
