Are you supporting international students of creative disciplines to develop their English language skills? Perhaps you are teaching on a preparatory college course or maybe you need some original ideas on themes such as plastic waste and upcycling for your teenage learners. When it comes to published materials to help develop language skills for international students on English for academic purposes (EAP) courses, they are often rather dry and too limited for developing the ability of art design students to switch deftly between concrete and abstract ideas. This book provides content for up to 50 lessons. It covers the fundamentals of communicating in higher education contexts and introduces many original and relevant topics with recurring emphases on sustainability and student-centeredness. The material can be used face-to-face and/or online and can be flexibly supplemented according to need.
