Inner Experiences: Theory, Measurement, Frequency, Content, and Functions Alain Morin, Thomas M. Brinthaup, Jason D. Runyan, 2016-02-26 One fundamental topic of scientific inquiry in psychology is the study of what William James called the stream of consciousness our ongoing experience of the world and ourselves from within our inner experiences These internal states aka stimulus independent thoughts include inner speech mental imagery feelings sensory awareness internally produced sounds or music unsymbolized thinking and mentalizing thinking about others mental states They may occur automatically during mind wandering daydreaming and resting state episodes and may focus on one's past present or future mental time travel e.g. auto-noetic consciousness Inner experiences also may take the form of intrusive or ruminative thoughts The types characteristics frequency content and functions of inner experiences have been studied using a variety of traditional methods among which questionnaires thought listing procedures i.e. open ended self reports thinking aloud techniques and daily dairies Another approach articulatory suppression consists in blocking participants use of verbal thinking while completing a given task deficits indicate that inner speech plays a causal role in normal task completion Various thought sampling approaches have also been developed in an effort to gather more ecologically valid data Previous thought sampling studies have relied on beepers that signal participants to report aspects of their inner experiences at random intervals More recent studies are exploiting smartphone technology to easily and reliably probe randomly occurring inner experiences in large samples of participants These various measures have allowed researchers to learn some

fundamental facts about inner experiences To illustrate it is becoming increasingly clear that prospection future oriented thinking greatly depends on access to autobiographical memory past oriented thinking where recollection of past scenes is used as a template to formulate plausible future scenarios The main goal of the present Research Topic was to offer a scientific platform for the dissemination of current high quality research pertaining to inner experiences Although data on all forms of inner experiences were welcome reports on recent advances in inner speech research were particularly encouraged Here are some examples of topics of interest 1 description and validation of new scales inventories questionnaires measuring any form of inner experience 2 novel uses or improvements of existing measures of inner experiences 3 development of new smartphone technology facilitating or broadening the use of cell phones to sample inner experiences 4 frequency content and functions of various inner experience 5 correlations between personality or cognitive variables and any aspects of inner experiences 6 philosophical or theoretical considerations pertaining to inner experiences and 7 inner experience changes with age

Insight and Intuition - Two Sides of the Same Coin? Michael Öllinger, Kirsten G. Volz, Eörs Szathmáry, 2018-07-12 Insight and intuition might be the most mysterious and fascinating fields of human thinking and problem solving They are different from standard and analytical problem solving accounts and provide the basis for creative and innovative thinking Until now they were investigated in separate academic fields with differing tradition Therefore this eBook attempts to bridge the gap between both processes and to provide a more integrated perspective Several experts address the underlying cognitive processes and provide a broad spectrum of new empirical theoretical and methodological insights

Aha! William Braxton Irvine, 2015 Great ideas often develop gradually after studying a problem at length but not always Sometimes an insight hits like a bolt from the blue For Archimedes clarity struck while he was taking a bath For Gustav Mahler it came as the blades of his oars touched the water And for Albert Einstein it emerged while he was talking to a friend Why do these moments of insight strike so suddenly Why do they so often come to us when we are focused on something completely unrelated And when great ideas come to us where do they come from In *Aha The Moments of Insight that Shape Our World* philosopher William B Irvine author of *A Guide to the Good Life* and *On Desire* explores these epiphanies from the minor insights that strike us all daily to the major realizations that alter the course of history Focusing on aha moments as they take place in five different domains religion morality science math and art Irvine provides case studies that shed light on the different ways epiphanies happen in the different domains and on their differing social impact Along the way he describes some of the great aha moments in history from ancient times to the present day We like to think that our greatest thoughts are the product of our conscious mind Irvine demonstrates though that it is our unconscious mind that is the source of our most significant insights and that the role the conscious mind plays in eliciting these insights is to try unsuccessfully to solve

certain problems Only if the conscious mind is willing to do this and thereby experience considerable frustration is the unconscious mind likely to reward it with a breakthrough insight that the conscious mind will then take credit for Irvine explores not only the neuroscience of aha moments but also their personal and social ramifications How does a person respond to having a breakthrough insight that goes against a dominant paradigm And how does the world respond when she shares that insight Irvine shows that in many cases what is most remarkable about those who have had the great insights of human history is not their but their courage and perseverance in fighting for the world to accept those insights Aha is a must read for cognitive scientists intellectual historians philosophers and anyone who has ever been blown away by the ideas that enlighten us when we least expect it Biologizing the Universe Benjamin B.
