The Ladder Andrew Bernard, 2021-02-19 Foreword by Colonel Dame Kelly Holmes Regardless of one's plans for the future many people's careers are founded on a series of chance encounters experiences and serendipity School college university jobs family sports hobbies friends relationships these are all fertile grounds for career related conversations and explorations What if we teachers guides mentors parents and peers started to notice these seemingly unconnected happenings and indeed started to engineer and encourage them to happen Using the mantra every adult is a careers teacher The Ladder will inspire teachers to explicitly link their subject area to students futures both in school and outside its walls and support them in doing so Bernie draws upon his 30 year career in education and business development to bring clarity focus and ideas to educators as to how they can best start students on their own ladders to success Ultimately in writing this book Bernie's aim is to bring young people's futures to life with some personal skills reflection and forward planning designed to help them as they embark on their fulfilling futures regardless of their upbringing academic achievements or ethnic background
