## 1. Define Research. State its importance and explain the necessity of research.

The systematic investigation into and study of materials and sources in order to establish facts and reach new conclusions.

Research is a process through which an individual or the researcher helps to search the definite or useful information from the number of respondents to evaluate or solve the problem-related questions. In fact, research is an art of scientific investigation or technique.

Research objectives help to identify the full purpose or attention of your research with the type of basic questions that will be noted. Explaining your research objectives means explaining what do I need to investigate and evaluate. The **importance of research** is also known as the **objectives of the research**. It includes various points such as:-

1. To find out the real facts
2. To achieve the new thoughts
3. To evaluate the information
4. To test a hypothesis
5. To design or implement the research
6. To improve the understanding

## 2. How to select appropriate research type?

**Step 1: Define the goals, objectives, and research question.**

Before worrying about the inferences, it is important to draw a path toward conclusive results. Therefore, it is essential to clearly understand what you want to research before deciding upon how to research. Most importantly, determine the variables that need to be studied in order to get an answer to the research question. Sticking to variables will lead you to the final result.

**Step 2: Refer pertinent research and effectively used methodology**

As there are immeasurable ways of conducting research all may not be meant for your study. Furthermore, determining the best research methodology can be difficult if you aren't aware of the approach undertaken by other researchers from your field.

Therefore, reading pertinent literature in your research area and then evaluating its methodology based on the feasibility and limitations is essential.

**Step 3: Structuring the plan and finding resources to conduct research**

While the research area may be same, the method of data collation may not be. Some may be time consuming, some may be found on the internet, others might need field
