character class briefly described in the Dungeon Master's Guide and gives it unprecedented depth and playability. This 176 page book includes more than 30 fully detailed Expert types including the Alchemist, Blacksmith, Courtesan, Merchant, Miner, Navigator, Physician, Sage, Sailor, and Weaponmaker. The Specialist, a new basic character class that players can use to create versatile adventuring Experts of any sort, The Guild Master, Militia Leader, and Spellcrafter prestige classes, the latter of which can allow Experts, Specialists, and other characters to gain specialized magical abilities that they can use to enhance their mundane abilities. More than 100 skills including dozens of Crafts and Professions and detailed rules for creation of everything from weapons and armor to buildings and ships. The concept of Convergence Tasks, activities that can be accomplished as the result of having ranks in two or more skills, e.g. use of Craft, Blacksmithing, and Profession: Mining to perform Smelting. These can allow characters to perform relatively specialized functions but does not inundate the game with obscure, rarely used skills. A section of 20 new Feats, 22 new magic items, more than two dozen ready to use NPC Experts that can be used as is or easily modified to suit any campaign or adventure. Flavor text from a number of literary sources that can help stimulate interest in the various sorts of Experts presented in this book suggest how they might be used or show them in a different light than usual.

Morgalad Fantasy RPG Core Rulebook John R. L. McNabb, 2015-11-19. One book to encompass everything: Player's Guide, Host's Guide, and Creature Compendium, all within one cover. Morgalad is a tabletop role playing game set in a pre-medieval era in a world of high fantasy. Offering an alternative approach to fantasy settings with a new, unique combat and magick system, Morgalad offers the old school high fantasy charm with a more narrative flair. Mechanically, Morgalad uses a dice pool system comprised of D6 based upon a character's skill level and attributes. Your character is built by choosing a base species and applying a professional template upon it. With over 100 species in the creature compendium and 50 abilities available to each profession, every character has the ability to customize their character to be unlike any other.

Epic Role Playing Rules Manual Chris Organ, Kent Davis, 2005-12-01. Epic Role Playing is a next generation RPG that contains intense, choice-filled combat, six innovative branches of magic, and culture-based character development. After an introductory chapter, the Epic Role Playing Rules Manual guides players through a wide-ranging and unique character creation process which births culturally driven, diverse heroes unconstrained by classes or inflexible tracks of progress. Character professions detailed in the Atlas of Eslin, Volume I are culturally defined and growth within them is guided by role playing, not a rigid set of rules. Following chapters include the faculty system which offers opportunities to explore an inexhaustible array of skill options, specialties, masteries, and grandmasteries. Instead of characters defined by an overall skill level, each skill level is independent and improves according to the character's talent for that skill. This is followed by a detailed catalogue of equipment. In its chapters for the gamemaster or Guide, practical tools and storytelling advice are discussed for creating heroic adventures that will have players swooning with terror and scrambling for glory. The final chapters are a treasury chock full of high quality and imbued items and rules for large scale

battle and warfare The Epic Rules Manual makes gaming easier with numerous quick reference boxes a glossary ready to use forms and integration with www.epicrpg.com This book is one of four core rulebooks for use with the Epic Role Playing game system

Iron Falcon Rules for Classic Fantasy Role-Playing Chris Gonnerman,2015-03-31 The earliest fantasy campaigns grew directly out of wargames There was a point in the development of the first commercial role playing game when the rules shed most of their wargame roots and assumed a form familiar to generations of players to come Iron Falcon aims to be that game reproducing its mechanics and style in all its raw and innovative glory as it was before the advent of more advanced rules
