How To Ai Video Generator 2025 For Experts:

Managing Artificial Intelligence Nils Urbach, Daniel Feulner, 2026-01-01 Artificial intelligence AI is reshaping the way organizations operate make decisions and create value As AI systems become increasingly embedded in business processes the challenge lies not only in understanding the technology but in managing it effectively This book provides a comprehensive and structured overview of the principles strategies and practices required to integrate AI into modern organizations It spans the full AI lifecycle from foundational concepts and learning methods to the identification of use cases the implementation of AI strategies and governance mechanisms as well as the design and development of AI applications It examines how to design meaningful human AI interactions navigate workforce transformation and operate AI systems at scale Ethical legal and social dimensions are addressed to ensure that AI adoption aligns with values such as transparency fairness and accountability The book is written for decision makers professionals and students who are not only curious about AI but who want to actively shape its role in organizations Whether you re leading AI initiatives or preparing for the future of work it provides essential guidance for leveraging AI in a strategic and impactful way After all AI hasn t yet figured out how to manage itself [Ethical, Legal, and Pedagogical Perspectives on AI in Education](#) Carlson, Kristen, 2026-01-21 The rapid integration of AI in the educational environment is transforming how students learn and schools operate While AI is a great prospective for personalized learning and expanded access to education its widespread adoption also raises significant ethical legal and pedagogical concerns Issues such as data privacy biases and the evolving role of educator s demand scrutiny Understanding these dimensions is essential to ensure that AI is implemented in ways that are transparent and supportive of meaningful learning experiences Ethical Legal and Pedagogical Perspectives on AI in Education explores the ethical legal and pedagogical dimensions of how AI is transforming education This book examines how technological advances have reshaped education systems and the benefits and challenges of these advancements Covering topics such as AI ethics and education this book is an excellent resource for educational researchers teachers students policymakers administrators academicians and more [AI in Legal Tech](#) Cat Casey, 2025-12-23 Explore the potential and risks of generative AI in the legal industry In AI in Legal Tech How Generative AI Is Transforming Legal Technology and the Practice of Law legal tech pioneer and guru Catherine Casey aka TechnoCat delivers a startlingly insightful and up to date discussion of the risks and opportunities presented by generative AI in the legal sector The author walks you through generative AI s impact on the practice of law legal ethics and legal careers offering guidance and clarity on a rapidly evolving technology Balancing engaging narrative with expert analysis AI in Legal Tech is written specifically for non technical legal professionals and students doing their best to navigate the intersection of technology and law You ll find Explanations of how AI is shaping new legal careers and what you can do to find success in your own A Legal Tech Survival Kit complete with a comprehensive Legal AI glossary and must try tools for tech savvy lawyers Insights from the front lines of legal AI and the people designing

the technologies shaping tomorrow's legal industry Perfect for practicing lawyers law students and law practice managers AI in Legal Tech will also prove invaluable to legal technologists paralegals and anyone else interested in the application of the latest tech to the legal field Teaching AI in Film and Media Studies Bridget Kies, Mel Stanfill, 2025-11-25 A timely intervention into the role of AI in teaching film and media studies this book offers insights into how scholars and educators can adapt their approaches in the face of emerging technologies Exploring the intersection of generative AI with film and media studies this book highlights the importance of addressing AI in the classroom It advocates for teaching AI literacy as an extension of media literacy encouraging students to understand AI's biases and limitations It explores the impact of AI on a variety of widely taught topics including copyright and remix culture the concept of authorship and collaborative storytelling film and media production its potential in relation to speculative history and archival research labor concerns in the media industries as well as impacts on fans and audiences The book considers how AI can foster creativity and critical thinking in students as they prepare for future roles in evolving media industries Each chapter features suggested readings activities and assignments that can be implemented in and out of class to reinforce and cultivate AI literacy and proficiency This book is an essential resource for faculty members in Film and Media Studies who want to know more about how to engage with generative AI tools in their teaching as well as graduate students taking pedagogy focused courses

Geography's Media Turn Chris Lukinbeal, Stanley D. Brunn, 2026-01-29 This edited volume examines how the arts and sciences have had to adapt engage confront and even alter research teaching and community service because of modern media The book describes how academics work with and through the media in their daily and professional lives The acceleration of changes to media in the digital age has been astounding whether due to social media web 2.0 new sensor technologies fake news or the rise of a post truth news media economy Many academics became media producers during COVID 19 having to engage in emergency remote teaching Further as academics we can no longer publish our results and expect a metered response from all entities but rather must promote and defend our work in the media and the classroom There is almost no part of academic work let alone human life that is not affected by media Many academics across the sciences and humanities now embrace the media as part of their daily practice and actively engage in media production through building podcasts and convergent media sites managing online courses and degree programs or being administrators or educators who interact with the media regularly at local national or international scales The chapters are original and written by a group of interdisciplinary junior and senior scholars from various world regions Law and the Digital Reanimation of the Dead Pranav Menon, 2026-02-09 This book analyzes the legal tensions that exist in the economy that purports to reanimate the dead using postmortem digital technologies Technological reanimation has proven to be big business with many notable commercial entities investing in this afterlife economy Postmortem technologies convincingly replicate the appearance physiognomy conversation styles and thought patterns of a deceased individual by generating

digital copies that act in their stead In the entertainment industry new works can be created with dead celebrities through a postmortem copy that is managed by their representatives The result is an economy in which the dead are offered as a product or service to consumers with some having their artistic legacies extended past death through an afterlife career Many stakeholders stand to benefit from such a lucrative afterlife economy but the law is simply not prepared for the issues that will arise with this exploitation of the dead Reanimation requires the exploitation of one s reputation persona artistic works and personal data However the corresponding legal protections are either nonexistent inapplicable or inconsistent across borders depending on which posthumous interest is analyzed In response and by studying the contours of the existing legal protections in the afterlife economy this book proposes a system rooted in the shared ownership of one s postmortem copy and the responsible stewardship of legacies through fiduciary duties Law and the Digital Reanimation of the Dead will be of considerable interest to scholars working in the areas of entertainment law intellectual property and law and technology as well as others with professional interests in the area
