The Complete Book on Adhesives, Glues & Resins Technology (with Process & Formulations) 2nd Revised Edition NPCS Board of Consultants & Engineers, 2017-02-24

An adhesive is a material used for holding two surfaces together. In the service condition, that way adhesives can be called as Social as they unite individual parts, creating a whole. A useful way to classify adhesives is by the way they react chemically after they have been applied to the surfaces to be joined. There is a huge range of adhesives, and one appropriate for the materials being joined must be chosen. Gums and resins are polymeric compounds and manufactured by synthetic routes. Gums and resins are largely used in water or other solvent-soluble form for providing special properties to some formulations. More than 95% of total adhesive used worldwide are based on synthetic resins. Gums and resins have wide industrial applications. They are used in the manufacture of lacquers, printing inks, varnishes, paints, textiles, cosmetics, food, and other industries. Increase in disposable income levels, rising GDP, and booming retail markets are propelling growth in packaging and flexible packaging industry. Growth of disposable products is expected to increase, which leads to an increase in consumption of adhesives in the packaging industry. The global value of the adhesive resins market is estimated to be 11,339.66 million and is projected to grow at a CAGR of about 4.88% in coming years. Rapid urbanization, coupled with growing infrastructure and real estate construction projects, is projected to further fuel demand for adhesives in India. This handbook covers photographs of plant machinery with suppliers' contact details and manufacturing aspects of various adhesives: glues, resins. The major contents of the book are: glues of animal origin, fish glues, animal glues, casein glues, adhesives, blood albumen glues, amino resin adhesives, cyanoacrylate adhesives, epoxy resin adhesives, phenolic resin adhesives, polychloroprene resin adhesives, polysulfide sealants, adhesives.
