Handbook of Empirical Research on Islam and Economic Life M. Kabir Hassan, 2016-12-30 In Islamic jurisprudence a comprehensive ethic has been formulated governing how business and commerce should be run how accountability to God and the community is to be achieved and how banking and finance is to be arranged This Handbook examines how well these values are translated into actual performance It explores whether those holding true to the system are hindered and put at a disadvantage or whether the Islamic institutions have been able to demonstrate that faith based activities can be rewarding both economically and spiritually

Starting a Hedge Fund Daniel L. Jones, 2014-12-08 Starting a Hedge Fund A Student's Journey into the World of High Finance profiles the beginning of Daniel Jones' adventure where he transforms himself from a typical university student to a hedge fund manager Not wanting to take the slow route that many managers opt for Daniel pushes to start his fund while in college This piece is an autobiographical account of this process and discusses the bumpy road that accompanies any start up enterprise Along the way Daniel takes readers through not only the events that led him to set up his fund but also explores the nature of investing as he sees it As an avid value and contrarian investor it becomes clear to see that the secret behind successful investing is to acquire strong companies at attractive prices In an effort to maximize reader value Daniel sets aside a portion of each chapter to dive into an important investment topic and has an entire chapter at the end of the book dedicated to a treatise on investing

Data Science for Financial Econometrics Nguyen Ngoc Thach, Vladik Kreinovich, Nguyen Duc Trung, 2020-11-13 This book offers an overview of state of the art econometric techniques with a special emphasis on financial econometrics There is a major need for such techniques since the traditional way of designing mathematical models based on researchers' insights can no longer keep pace with the ever increasing data flow To catch up many application areas have begun relying on data science i.e. on techniques for extracting models from data such as data mining machine learning and innovative statistics In terms of capitalizing on data science many application areas are way ahead of economics To close this gap the book provides examples of how data science techniques can be used in economics Corresponding techniques range from almost traditional statistics to promising novel ideas such as quantum econometrics Given its scope the book will appeal to students and researchers interested in state of the art developments and to practitioners interested in using data science techniques
