## 2. Installation

### 2.1. Overview

This chapter documents the procedures for installing Virtual Reactor and its license server, the Reprise License Manager (RLM). The following steps lead you through the process of getting started with Virtual Reactor:

1. [Create a CPFD Support site account](#) in order to access downloads
2. Acquire hardware that meets recommended [System Requirements](#)
3. [Plan the Client-Server Configuration](#)
4. [Download Virtual Reactor](#)
5. [Install the RLM Server](#)
6. [Install the RLM License](#)
7. [Install Virtual Reactor](#)
8. [Point Client Machines to the RLM Server](#)
9. [Install NVIDIA Drivers](#)

In order to use Virtual Reactor, you must have a valid software license installed. Virtual Reactor uses a client-server model for licensing, meaning that your license(s) can be placed on one machine, which acts as a license server, and other machines on the same network can point to and request licenses from that server. The server may also use the license(s) that it hosts.

The licensing policy for Virtual Reactor is as follows:

- Each solver license allows the user to run one instance of the Virtual Reactor solver. Optionally, add-ons to each solver license may be purchased to include Chemistry capabilities and/or Parallel capabilities.
- The number of Virtual Reactor solvers that can be run simultaneously is limited to the number of solver licenses that have been purchased.
- With any license, an unlimited number of Virtual Reactor Graphical User Interfaces (GUIs) can be open at the same time. This allows users to set up simulations, review previously set up models, and use all functions of the GUI.
- [Running a single time step](#) does not count against the number of Virtual Reactor solver licenses in use. This allows users to review a project setup at any time.
- An unlimited number of GMV post-processing instances can be open at the same time.
- If Parallel add-on licenses have been purchased, Virtual Reactor can utilize NVIDIA GPU cards to increase calculation speed. The number of simulations that can use GPU acceleration simultaneously is limited to the number of Parallel add-on licenses purchased.
- If Chemistry add-on licenses have been purchased, Virtual Reactor can include user-specified chemical reactions in the simulation. The number of simulations that can solve chemistry simultaneously is limited to the number of chemistry add-on licenses that have been purchased.
- If Parallel and Chemistry add-on licenses have been purchased, Virtual Reactor can use multiple CPU cores for parallelization of volume-average chemistry to increase calculation speed. The number of simulations that can use CPU parallel acceleration simultaneously is limited to the number of Parallel add-on licenses purchased.

### 2.2. System Requirements

Virtual Reactor can be used on either Linux or Windows. The following table lists minimum and recommended system requirements.

	Minimum	Recommended
Operating System	Recent 64-bit Linux 64-bit Windows 7, 8, or 10	64-bit CentOS 6 (RHEL 6) or higher Windows 7 Professional 64-bit

## **Barracuda User Guide:**

### **Guide for improved monitoring of anchored fish aggregating device catches and improved assessment of anchored fish aggregating device impacts on stocks in the Western Central Atlantic Fishery Commission (WECAFC) region**

Food and Agriculture Organization of the United Nations, Vallès, H.; Taconet, M., 2025-04-01 This guide is mainly aimed at national local fishery authorities and researchers involved in developing and implementing fishery data collection systems It first describes recent efforts in improving fishery data collection systems involving aFADs in the WECAFC region with focus on the Eastern Caribbean It then builds on such efforts to propose a way forward that hinges on the potentially transformative power of information and communications technology ICT tools to address past and current data deficiencies It is expected that the full uptake and implementation of many of the monitoring and data collection recommendations provided here will be incremental and will require a phased in approach for adoption **Chrysler**

**Muscle Parts Interchange Manual, 1968-1974** Paul A.
