Pro ASP.NET Web API Security Badrinarayanan Lakshmiraghavan, 2013-05-13 ASP NET Web API is a key part of ASP NET MVC 4 and the platform of choice for building RESTful services that can be accessed by a wide range of devices Everything from JavaScript libraries to RIA plugins RFID readers to smart phones can consume your services using platform agnostic HTTP With such wide accessibility securing your code effectively needs to be a top priority You will quickly find that the WCF security protocols you re familiar with from NET are less suitable than they once were in this new environment proving themselves cumbersome and limited in terms of the standards they can work with Fortunately ASP NET Web API provides a simple robust security solution of its own that fits neatly within the ASP NET MVC programming model and secures your code without the need for SOAP meaning that there is no limit to the range of devices that it can work with if it can understand HTTP then it can be secured by Web API These SOAP less security techniques are the focus of this book

Take the security of your ASP NET Web API to the next level using some of the most amazing security techniques around

About This Book This book has been completely updated for ASP NET Web API 2 0 including the new features of ASP NET Web API such as Cross Origin Resource Sharing CORS and OWIN self hosting

Learn various techniques to secure ASP NET Web API including basic authentication using authentication filters forms Windows Authentication external authentication services and integrating ASP NET s Identity system

An easy to follow guide to enable SSL prevent Cross Site Request Forgery CSRF attacks and enable CORS in ASP NET Web API

Who This Book Is For This book is intended for anyone who has previous knowledge of developing ASP NET Web API applications

Good working knowledge and experience with C and NET Framework are prerequisites for this book

What You Will Learn

- Secure your web API by enabling Secured Socket Layer SSL
- Manage your application s user accounts by integrating ASP NET s Identity system
- Ensure the security of your web API by implementing basic authentication
- Implement forms and Windows authentication to secure your web API
- Use external authentication such as Facebook and Twitter to authenticate a request to a web API
- Protect your web API from CSRF attacks
- Enable CORS in your web API to explicitly allow some cross origin requests while rejecting others
- Fortify your web API using OAuth2

In Detail This book incorporates the new features of ASP NET Web API 2 that will help you to secure an ASP NET Web API and make a well informed decision when choosing the right security mechanism for your security requirements

We start by showing you how to set up a browser client to utilize ASP NET Web API services

We then cover ASP NET Web API s security architecture authentication and authorization to help you secure a web API from unauthorized users

Next you will learn how to use SSL with ASP NET Web API including using SSL client certificates and integrate the ASP NET Identity system with ASP NET Web API

We ll show you how to secure a web API using OAuth2 to authenticate against a membership database using OWIN middleware

You will be able to use local logins to send authenticated requests using OAuth2

We also explain how to secure a web API using forms authentication and how users can log in with their Windows credentials using integrated Windows authentication

You will come to understand the need for external authentication services to enable OAuth OpenID and social media authentication

We ll then help you implement anti Cross Site Request Forgery CSRF measures in ASP NET Web API

Finally you will discover how to enable Cross Origin Resource Sharing CORS in your web API application

Style and approach Each chapter is dedicated to a specific security technique in a task based and easy to follow way

Most of the chapters are accompanied with source code that demonstrates the step by step guidelines of implementing the technique and includes an explanation of how each technique
