Data were gathered during a three-month field study relying on an online survey including a questionnaire, six interviews, and a netnography research method. In a world where technology is increasingly intertwined with everyday life and work, the traditional profession is fading into the background while the digital age is unleashing unlimited opportunities and changes in our working, playing, and living ways. Consequently, it has led to increased digital nomadism phenomena studies; however, none of them addressed the phenomena in the Middle Eastern countries as innovation hubs.
