Advocacy Coalitions and Democratizing Media Reforms in Latin America Christof Mauersberger,2015-07-27 This book examines democratizing media reforms in Latin America The author explains why some countries have recently passed such reforms in the broadcasting sector while others have not By offering a civil society perspective the author moves beyond conventional accounts that perceive media reforms primarily as a form of government repression to punish oppositional media Instead he highlights the pioneering role of civil society coalitions which have managed to revitalize the debate on communication rights and translated them into specific regulatory outcomes such as the promotion of community radio stations The book provides an in depth comparative analysis of media reform debates in Argentina and Brazil analyzing Chile and Uruguay as complementary cases supported by original qualitative research As such it advances our understanding of how shifting power relations and social forces are affecting policymaking in Latin America and beyond

and Croatia this book investigates the role of narratives in the integration process of candidate countries into the European

integrating the concept of topoi and other elements of literature studies that enable a fine grained and yet still transferable
approach to narratives I argue that narratives influence the conditions for possible political action by delineating the range of
possible and desirable forms of behaviour This study s empirical research mainly consists of a discourse analysis of political
