Roy Chudley's books on Building Construction have helped thousands of students gain their qualifications and pass exams. He was formerly a Senior Lecturer at Guildford College.

*European Building Construction Illustrated* Francis

D. K. Ching, Mark Mulville, 2014-08-11 The first European edition of Francis DK Ching's classic visual guide to the basics of building construction. For nearly four decades the US publication *Building Construction Illustrated* has offered an outstanding introduction to the principles of building construction. This new European edition focuses on the construction methods most commonly used in Europe, referring largely to UK Building Regulations overlaid with British and European while applying Francis DK Ching's clear graphic signature style. It provides a coherent and essential primer presenting all of the basic concepts underlying building construction and equipping readers with useful guidelines for approaching any new materials or techniques they may encounter. *European Building Construction Illustrated* provides a comprehensive and lucid presentation of everything from foundations and floor systems to finish work. Laying out the material and structural choices available, it provides a full understanding of how these choices affect a building's form and dimensions. Complete with more than 1000 illustrations, the book moves through each of the key stages of the design process from site selection to building components, mechanical systems, and finishes. *Illustrated* throughout with clear and accurate drawings that effectively communicate construction processes and materials. Provides an overview of the mainstream construction methods used in Europe. Based around the UK regulatory framework, the book refers to European level regulations where appropriate. References leading environmental assessment methods of BREEAM and LEED while outlining the Passive House Standard. Includes emerging construction methods driven by the sustainability agenda such as structural insulated panels and insulating concrete formwork. Features a chapter dedicated to construction in the Middle East focusing on the Gulf States.

**Building Construction Illustrated** Francis D. K. Ching, 2020-01-29 The 1 visual guide to building construction principles updated with the latest materials, methods, and systems. For over four decades *Building Construction Illustrated* has been the leading visual guide to the principles of building construction. Filled with rich illustrations and in-depth content by renowned author Francis D K Ching, it offers students and practicing professionals the information needed to understand concepts in residential and commercial construction, architecture, and structural engineering. This Sixth Edition of *Building Construction Illustrated* has been revised throughout to reflect the latest advancements in building design, materials, and systems, including resilient design, diaphragms, modular foundation systems, smart facade systems, lighting sources, mass timber materials, and more. It features new illustrations and updated information on sustainability and green building, insulation materials, and fire-rated wall and floor assemblies. This respected industry standard guide remains as relevant as ever, providing the latest in codes and standards requirements, including IBC, LEED, and CSI MasterFormat. This Sixth Edition, the leading illustrated guide to building construction fundamentals, written and detailed in Frank Ching's signature illustrative style, includes all new sections on resilient design, diaphragms, modular foundation systems, smart facade types and systems, lighting sources and systems, and mass timber materials, cross-laminated timber (CLT) and nail-laminated timber (NLT). Revised to reflect the latest updates in codes and standards requirements: 2018 International Building Code (IBC), LEED v4, and CSI.

MasterFormat 2018 Includes updated information on sustainability and green building insulation materials stair uses stoves and inserts and fire rated wall and floor assemblies Building Construction Illustrated Sixth Edition is an excellent book for students in architecture civil and structural engineering construction management and interior design programs Ching communicates these core principles of building construction in a way that resonates with those beginning their education and those well into their careers looking to brush up on the basics Building Construction Illustrated is a reliable lifelong guide that practicing architects engineers construction managers and interior designers will turn to time and again throughout their careers
