Taxmann's SELF LEARNING STUDY MATERIAL for Business Laws (Paper 2 | Law) - Builds Strong Legal Fundamentals Through Structured Explanations | Integrated Practice | Examination-focused Application CA

Shashank S. Sharma, 2026-02-20 Business Laws SELF LEARNING STUDY MATERIAL is a comprehensive syllabus aligned academic text designed exclusively for CA Foundation Paper 2 May September 2026 Examinations under the ICAI's revised curriculum. This publication is engineered as a structured conceptual foundation for students entering the discipline of commercial law for the first time. It systematically introduces statutory principles, legal terminology, and interpretative frameworks in a simplified yet academically rigorous manner. The book does not merely reproduce legal provisions; it translates them into pedagogically coherent modules that build conceptual clarity, analytical ability, and examination readiness. Its core objective is to enable first-level learners to understand, interpret, and apply business law provisions in objective, descriptive, and case-based examination formats prescribed by ICAI. The present publication is the 9th Edition, authored by CA Shashank S. Sharma, with the following noteworthy features:

- **Concept first Pedagogy:** The book introduces core legal concepts before moving to statutory detail. It builds understanding progressively, beginning with definitions and principles, then advancing to application and interpretation.
- **ICAI syllabus Aligned:** The content is fully aligned with ICAI's Foundation syllabus, ensuring topic-wise coverage consistent with examination requirements.
- **Division based Academic Architecture:** The book is divided into seven structured divisions, comprising twenty chapters, ensuring systematic coverage and logical progression across legal domains.
- **Multi format Practice Integration:** Each chapter concludes with extensive exercises, including:
 - o Multiple Choice Questions (MCQs)

 - o Framing legal issues
 - o Citing statutory provisions appropriately
 - o Applying law to facts
 - o Presenting conclusions in examination friendly format
- **Undergraduate friendly Language:** Complex legal terminology is explained in lucid and accessible language without compromising statutory accuracy.
- **Self learning Orientation:** The book is designed to function as a standalone preparation resource, enabling independent study without constant faculty assistance.
- **Pedagogical Strength:** The academic value of the book lies in its ability to:
 - o Convert statutory text into teachable academic content
 - o Build conceptual clarity before memorisation
 - o Develop structured legal reasoning
 - o Train students in examination oriented presentation
 - o Reinforce retention through structured exercises
- **Academic Positioning:** Unlike summary notes or exam crammer texts, this publication is a conceptual foundation builder. It is positioned as a primary study material that ensures students understand the 'why' behind legal provisions before attempting the 'how' of answering examination questions.
