[Glocalization and the Development of a Hybrid Leadership Model](#) Qingyan

Tian,2020-10-26 Through in depth interviews with the presidents of major Chinese universities this text explores the changing demands on leaders in Higher Education in the wake of globalization and develops a contemporary model of Hybrid Leadership Glocalization and the Development of a Hybrid Leadership Model examines the leadership philosophies and practices of Chinese university presidents and presents new insights and perspectives on the meaning and practice of leadership in a global era Drawing on data from a unique methodological process which integrates Western and Eastern approaches chapters foreground the experiences of leaders in higher education to demonstrate how they perceive and balance diverse and potentially conflicting local and global demands and ensure effective leadership by combining leadership philosophies and practices from local and global contexts Ultimately this informs the development of new model of leadership characterized by the hybridization of the global and local at the contextual and personal levels and marked by global competency multiple cultural and sectoral mindsets and geographically adaptable skill sets Challenging and enriching the existing theories of leadership for higher education this text will be of interest to scholars post graduate students and academics in the fields of educational leadership international and comparative education higher education and leadership studies It will also be of interests to the practitioners of leadership in general and higher education leadership in particular

Integrated Reporting and Performance Measurement Systems Bogusława Bek-Gaik,Anna Surowiec,2023-11-15

Despite the development of innovative approaches to strengthen accountability and the quality of integrated reporting disclosures stakeholders are increasingly demanding more objective and unambiguous data Therefore the use of non financial performance measures that assist in collecting comparable information and the verification thereof by independent experts can help to establish trust in a firm s communication with its stakeholders Certainly non financial information should complement mandatory financial reporting to go beyond traditional financial ratios and link them to non financial risks and achievements This book examines the possibility of using information provided by performance measurement systems in the process of preparing integrated reports It presents an overview of the integrated report from the supply side which undoubtedly affects the quality and usefulness of the information presented as well as enhances the manner in which the data and analyses are suitable for independent assessment The book looks at the ways in which various groups of stakeholders management those who prepare non financial reports investors influence the scope of the key performance indicators KPIs used for integrated reporting purposes and what categories of KPIs are the most significant Further it analyzes which performance measurement systems provide information for the different components of integrated reports The book is interdisciplinary its thematic scope is at the intersection of accounting business reporting and business management and thus it provides an important source of knowledge for students scholars and researchers of economics finance and management It will also be a valuable guide for those preparing integrated reports or other forms of non financial reporting
