Japanese Diplomacy H. D. P. Envall, 2015-02-17 Groundbreaking study demonstrating how Japan's leaders play an important role in diplomacy A political leader is most often a nation's most high profile foreign policy figure its chief diplomat But how do individual leadership styles personalities perceptions or beliefs shape diplomacy In Japanese Diplomacy the question of what role leadership plays in diplomacy is applied to Japan a country where the individual is often viewed as being at the mercy of the group and where prime ministers have been largely thought of as reactive and weak In challenging earlier simplified ideas of Japanese political leadership H D P Envall argues that Japan's leaders from early Cold War figures such as Yoshida Shigeru to the charismatic and innovative Koizumi Jun ichir to the present leadership of Abe Shinz have pursued leadership strategies of varying coherence and rationality often independent of their political environment He also finds that different Japanese leaders have shaped Japanese diplomacy in some important and underappreciated ways In certain environments individual difference has played a significant role in determining Japan's diplomacy both in terms of the country's strategic identity and summit diplomacy What emerges from Japanese Diplomacy therefore is a more nuanced overall picture of Japanese leadership in foreign affairs
