Research on home visiting shows that Early Head Start EHS home-based programs benefit from additional training and resources that streamline philosophy and content. In this essential guide, Walsh and Mortensen propose that alignment with Family Life Education's FLE strengths-based methodology results in greater consistency through a model of prevention education and collaboration with families. This text is the first to outline linkages between FLE and EHS home visiting. It explores a qualitative study of FLE integrated in a current EHS home-based program and application of FLE methodology to home visiting topics. This approach will influence professional practice and provide a foundation for developing evidence-based home visiting practices. Online content accompanies the text with videos demonstrating the FLE approach in action and discussion questions to encourage engagement with and understanding of the core material. *Transforming Early Head Start Home Visiting: A Family Life Education Approach* is essential reading for upper-level undergraduate and masters students in family studies and early childhood education as well as practitioners working with children and families.
