Learning, 2018-09-27 There are many reasons to be curious about the way people learn and the past several decades have
seen an explosion of research that has important implications for individual learning schooling workforce training and policy
In 2000 How People Learn Brain Mind Experience and School Expanded Edition was published and its influence has been
wide and deep The report summarized insights on the nature of learning in school aged children described principles for the
design of effective learning environments and provided examples of how that could be implemented in the classroom Since
then researchers have continued to investigate the nature of learning and have generated new findings related to the
neurological processes involved in learning individual and cultural variability related to learning and educational
technologies In addition to expanding scientific understanding of the mechanisms of learning and how the brain adapts
throughout the lifespan there have been important discoveries about influences on learning particularly sociocultural factors
and the structure of learning environments How People Learn II Learners Contexts and Cultures provides a much needed
update incorporating insights gained from this research over the past decade The book expands on the foundation laid out in
the 2000 report and takes an in depth look at the constellation of influences that affect individual learning How People Learn
II will become an indispensable resource to understand learning throughout the lifespan for educators of students and adults
