**Class Size** Peter Blatchford, Kam Wing Chan, Maurice Galton, Kwok Chan Lai, John Chi-Kin Lee, 2016-04-28 Much debate research and commentary about class sizes in schools is limited because of an exclusive concern with class size and pupil academic attainment and a neglect of classroom processes which might help explain class size effects or lack of them Very little is known about the central question how can teachers make the most of class size changes Much of the commentary on class size effects has focused on Western and English speaking countries but there are promising developments elsewhere particularly the Small Class Teaching initiatives in East Asia in the past decade which have brought new knowledge and practical wisdom to the class size debate This book seeks to move toward a clearer view of what we know and do not know about class size effects and to identify future steps in terms of policy and research There is a huge and exciting potential for international collaboration on knowledge concerning class size effects which can help with research informed policy The book aims to draw out Eastern and Western international contexts which underpin any understanding of the role of class size in school learning The book has chapters by an international team of experts on class size effects including Maurice Galton and John Hattie Chapters are organised into four main sections Socio cultural and political contexts to the class size debate in the East and West Research evidence on class size Class size and classroom processes likely to be related to class size changes Professional development for small class teaching in East Asia      *Demystifying Outcomes Assessment for International Educators* Darla K. Deardorff, 2023-07-03 For many in international education assessment can seem daunting and overwhelming especially given that such efforts need to involve much more than a pre post survey This book is a practical guide to learning outcomes assessment in international education for practitioners who are starting to engage with the process as well as for those who want to improve the quality and effectiveness of their assessment efforts Assuming no prior knowledge the book offers an accessible and clear road map to the application of assessment Recognizing that a one size fits all approach cannot capture the diversity of goals and settings of international education or the rich variety of programs and organizations involved in delivering it author Darla Deardorff provides the reader with foundational principles and knowledge to develop appropriate assessment approaches for evaluating and improving student learning outcomes which are the drivers of higher education internationalization She provides the background for assessment highlights how the characteristics of international education pose unique challenges for assessment considers the contexts to which assessment may be applied whether in cross border or at home institutional experiences such as in curricular co curricular or extracurricular settings and distills a seemingly convoluted process into a manageable approach From the basics of getting started in assessment to highlighting pitfalls to avoid this book offers a holistic and practical approach to assessment that

moves beyond seeing assessment as a discrete activity to an ongoing process that is integrated into student learning. There is also a unique chapter for education leaders on assessment essentials from a leadership perspective. The appendices include worksheets for implementing assessment, creating an assessment team, and getting buy-in from stakeholders. Other appendices include a list of standards adapted to international education outcomes, assessment guidance on assessing intercultural competence, and resources. This book reflects the author's experience of over a decade of work with international education programs and higher education institutions around the world and synthesizes what she has learned into an easy-to-use resource for anyone who wants to understand and utilize effective assessment in the field of international education.

**Supporting Children with Communication Difficulties in Inclusive Settings** Linda McCormick, Diane Frome Loeb, Richard L. Schiefelbusch, 2003. This thoroughly updated text is written especially for future language interventionists and special education teachers who will work on collaborative teams in public settings. *Supporting Children with Communication Difficulties in Inclusive Settings*, Second Edition, teaches an innovative service delivery model where parents and professionals share expertise and responsibility for maximizing and supporting language and communicative competence in classrooms with wide ability and cultural, racial, ethnic, linguistic, and economic diversity. It provides step-by-step directions and hands-on activities to give students practice in applying the procedures. The writing is clear and does not assume that the student has had previous courses or knowledge in speech language intervention. The content offers basic strategies to assess, plan, teach, and evaluate language and communication.

**Fire Service Instructor** International Society of Fire Service Instructors, Iafc, 2013-04-22. New from the National Fire Protection Association International Association of Fire Chiefs and International Society of Fire Service Instructors. Based on the 2012 Edition of NFPA 1041 Standard for Fire Service Instructor Professional Qualifications, *Fire Service Instructor Principles and Practice*, Second Edition, provides students with the up-to-date information required to meet and exceed the modern job performance requirements for fire service instructors. In addition to scores of content enhancements throughout the text, this Second Edition is now supported by an unparalleled suite of digital course management and student assessment resources. *Fire Service Instructor Principles and Practice*, Second Edition, has been updated to include coverage of Fire Service Instructor Levels I, II, and III. New chapters provide expanded emphasis on cultural diversity, bias, and discrimination in the development and delivery of training. *Fire Service Instructor Principles and Practice* also includes practical coverage of legal issues, the learning process, communication skills, lesson plan development, safety during the learning process, and instructor management.
