*Effective Utilization and Management of Emerging Information Technologies* Information Resources Management Association. International Conference,1998-01-01 Technological advances of the past decades have allowed organizations of all sizes to use information technology in all aspects of organizational management This book presents more than 200 papers that address this growing corporate phenomena *Information Resources Management: Concepts, Methodologies, Tools and Applications* Management Association, Information Resources,2010-04-30 This work is a comprehensive four volume reference addressing major issues trends and areas for advancement in information management research containing chapters investigating human factors in IT management as well as IT governance outsourcing and diffusion Provided by publisher **Convergence of Project Management and Knowledge Management** Taverekere Srikantaiah,Michael E. D. Koenig,Suliman Hawamdeh,2010-11-16 This book focuses on the proper access and delivery methods for explicit knowledge in projects and also concentrates on tacit knowledge unknown and unavailable to most people in project environments This book also discusses the benefits of managing knowledge in projects provides techniques and addresses strategy and deployment issues that will increase the rate of return on projects [Encyclopedia of Information Science and Technology, Second Edition](#) Khosrow-Pour, D.B.A., Mehdi,2008-10-31 This set of books represents a detailed compendium of authoritative research based entries that define the contemporary state of knowledge on technology Provided by publisher *Work, Workflow and Information Systems* William B. Rouse,Andrew P. Sage,2007 This volume brings together several perspectives on the nature of work processes in enterprises and how information systems can best support these processes The genesis of this idea was the shared interests of the authors in how enterprises improve and change The shared belief is that change of enterprises relates to change of work processes and the success of such changes relates to how work processes are supported by information systems Thus the papers in this volume address both the nature of work and the design of information systems to support work This volume is divided into two main sections work and workflow and information systems There are three papers in each section The disciplines represented across these six papers include management engineering computing and architecture These four disciplines pursue work workflow and information systems from quite different perspectives management to represent business practices and processes engineering to represent the physical flows in the system computing to represent the information flows and architecture to represent human flows within and among physical spaces Enterprises of course include all these types of flows **The System Summary** ,1985-10 [Management](#) Angelo Kinicki,Denise Breaux Soignet,2002 *Resources in Education* ,1981 *Circular - Georgia State College of Agriculture, Extension Division* Georgia State College of Agriculture.
