The Dieselgate Marco Frigessi di Rattalma, 2017-01-20 This book explains compares and assesses the legal implications of Dieselgate within a range of selected jurisdictions and at the EU international and comparative law level. The book analyses the US EPA VW 14.7 billion dollar settlement of 2016 one of the largest civil settlements in the history of environmental law. As it shows the Dieselgate affair has raised a host of issues concerning corporate and social responsibility tort liability environmental liability contractual defective products warranty and false environmental claims in a range of jurisdictions. Issues like repurchasing or retrofitting cars from consumers and making direct payments to consumers through car buy backs and compensation are analysed. Further the book relates how Dieselgate has also contributed to the discussion about the introduction of more effective collective measures of redress for consumers such as class actions in Germany France Italy and the UK. The book subsequently reviews the criminal offences Volkswagen is currently confronted with in Germany France and Italy i.e. fraud and manipulation of capital markets by belatedly providing shareholders with essential information relevant for the share value and potentially environmental crimes. It demonstrates how Dieselgate has sparked new debates in Germany Italy France and the UK about the need to introduce enterprise liability for organised crimes lack of compliance and control.

structures and intentional violations of the law Lastly the book discusses how EU law has sought to respond to Dieselgate and thus investigates the controversial EU Regulation No 2016 646 introducing a temporary conformity factor of 2.1 equivalent to a 110% increase on the current limit to be applied for NOx in the new RDE testing cycle and the works of the EU committee of inquiry into Emissions Measurements in the Automotive Sector EMIS Autocar & Motor ,1994-05 Automotive Engineering ,1997 Automotive News ,2004 Design News ,1996 **Motor Industry Magazine** ,2006
