

Constructing an elevation

The points from which an elevation is to be drawn depend on what needs to be clearly represented. Sometimes it may not be a good idea simply project the entire plan. The result may appear distorted and difficult to read. Treat the elevation as a key plan, meaning what may not be obvious.

It may become necessary to draw more than one elevation, projecting in different directions, across from the examples on this page. The elevation on the next page begins from a desirable area and includes everything in the garden. The resulting scene is full and probably too tight to an extreme degree.

Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him.
