lining pattern, a regular princess-style dress pattern is a possible substitute (see Figure 1). If you use a pattern of this type, several modifications will be necessary. First, rule the center front line marked on the center front panel and cut off the extension for the lap and lapel. Then alter the dress front slightly for a basic neckline, and cut it off to a 36-inch bodice. Finally, draw the panel lines from the largest hip measurement down absolutely vertically rather than outward on a slant, since a form cover must fit skin-tight all the way to the lower edge.

THE PATTERN SIZE

Because the form cover must be skin tight, buy your pattern one size smaller than the dress size you normally wear, or in the smallest size that will fit the bust. Then, if necessary, add to the seams below the waist to let out the hips. This requires much less alteration than would be necessary to fit out excess above the waistline. Fully half of the college students find their proportions from shoulder to waist somewhat

smaller than from waist to hip. By using the pattern size and letting out the seams from waist to hip, you will have to make very little adjustment in the fitting.

For class use, the instructor will find that it is time to make up in advance muslin French lining samples of all pattern sizes (12, 14, 16, 18, 20, 22) so that the student can then try them on and select the one which fits her best above the waist.¹

Fig. 2. Checking pattern size by trying on a muslin cover sample.

¹ The sample models should be left open down the center back, and the neckline, armholes, and lower edge should be turned under on the seam lines and stitched twice to prevent stretching. They should be kept in a closed box and not in use to prevent soiling, since they would shrink and be inaccurate after being washed or dry cleaned. For class use the teacher will also find it convenient to cut out sets of each pattern size in tagboard without seam allowances. She should mark the lengthwise grain the full length of the pattern and mark or cut notches, and should provide reinforced perforations in the top of each piece and separate the four parts of each pattern set.
