Sustainability and Social Responsibility of the Media and in the Media Milan Todorovic, Samuel O. Idowu, Silvia Puiu, 2026-01-01 This book addresses several relevant questions that keep coming up as the media sector develops and changes Although the field of

media is multifaceted it is still dominated by very large commercial interests The multitude of platforms devices formats and technologies spread across different market segments are often controlled within the same value and supply chain are diagonally integrated and are tightly regulated by a set of changing and evolving community rules Therefore this book discusses a wide range of issues related to notions of media in various corporate independent and operational contexts of ethics ownership authorship originality trustworthiness economic social and even environmental sustainability In this context the book considers the notion of sustainability and social responsibility in media contexts from a variety of new unbiased and diverse perspectives making it valuable for researchers and practitioners Geography's Media Turn Chris

Lukinbeal, Stanley D. Brunn, 2026-01-29 This edited volume examines how the arts and sciences have had to adapt engage confront and even alter research teaching and community service because of modern media The book describes how academics work with and through the media in their daily and professional lives The acceleration of changes to media in the digital age has been astounding whether due to social media web 2 0 new sensor technologies fake news or the rise of a post truth news media economy Many academics became media producers during COVID 19 having to engage in emergency remote teaching Further as academics we can no longer publish our results and expect a metered response from all entities but rather must promote and defend our work in the media and the classroom There is almost no part of academic work let alone human life that is not affected by media Many academics across the sciences and humanities now embrace the media as part of their daily practice and actively engage in media production through building podcasts and convergent media sites managing online courses and degree programs or being administrators or educators who interact with the media regularly at local national or international scales The chapters are original and written by a group of interdisciplinary junior and senior scholars from various world regions *Listening In* Toby Heys, David Jackson, Marsha Courneya, 2026-01-22 Using a series of colourful case studies this book traces a short history of covert listening and audio surveillance in the electronic age and examines the ways that it has shaped the development of artificial intelligence **Law and the Digital Reanimation of**

the Dead Pranav Menon, 2026-02-09 This book analyzes the legal tensions that exist in the economy that purports to reanimate the dead using postmortem digital technologies Technological reanimation has proven to be big business with many notable commercial entities investing in this afterlife economy Postmortem technologies convincingly replicate the appearance physiognomy conversation styles and thought patterns of a deceased individual by generating digital copies that act in their stead In the entertainment industry new works can be created with dead celebrities through a postmortem copy that is managed by their representatives The result is an economy in which the dead are offered as a product or service to consumers with some having their artistic legacies extended past death through an afterlife career Many stakeholders stand to benefit from such a lucrative afterlife economy but the law is simply not prepared for the issues that will arise with this exploitation of the dead Reanimation requires the exploitation of one's reputation persona artistic works and personal data

However the corresponding legal protections are either nonexistent inapplicable or inconsistent across borders depending on which posthumous interest is analyzed In response and by studying the contours of the existing legal protections in the afterlife economy this book proposes a system rooted in the shared ownership of one s postmortem copy and the responsible stewardship of legacies through fiduciary duties Law and the Digital Reanimation of the Dead will be of considerable interest to scholars working in the areas of entertainment law intellectual property and law and technology as well as others with professional interests in the area [Television & Cable Factbook](#) ,1987 [The Wireless Engineer](#) ,1943 [Ham Radio Magazine](#) ,1979-07 [International Aerospace Abstracts](#) ,1978 **Index to IEEE Publications** Institute of Electrical and Electronics Engineers,1995 Issues for 1973 cover the entire IEEE technical literature **Proceedings of the IRE.** Institute of Radio Engineers,1960 **Proceedings of the IRE.** ,1960 **Braby's Cape Province Directory** ,1992 [Le Journal de physique et le radium](#) ,1957 Beginning in 1922 includes Proces verbaux et resumes des communications of the Societe franc aise de physique **AI Video Income Mastery with Pictory Course (2026 Edition): From Beginner to Profitable Creator** Sean Graham,2026-01-22 COURSE INTRODUCTION Welcome to AI Video Income Mastery with Pictory This course is designed for absolute beginners who want to use AI to create professional quality videos and turn them into real world income without needing technical skills editing experience or on camera confidence If you ve ever felt overwhelmed by video creation intimidated by complex software or unsure how AI tools actually translate into money this course was built specifically for you Who This Course Is For Beginners with no prior video or AI experience Aspiring digital entrepreneurs creators and marketers People who want to build income streams without showing their face Business owners who want faster cheaper content creation Anyone who wants future proof digital skills for the AI economy The Problems This Course Solves I don t know where to start with AI tools Video takes too much time or feels too technical I create content but don t know how to monetize it I m worried AI will replace me instead of helping me I want income skills that still matter in 3 5 years The Transformation You ll Achieve By the end of this course you will Confidently use Pictory to create professional AI videos Understand why your videos work not just how to make them Have a clear monetization path aligned with your goals Build systems instead of relying on motivation Position yourself for long term success in an AI driven economy This is not a theory based course Every concept is explained step by step with execution in mind so you can take action immediately even if you re starting from zero Why This Approach Works in 2026 and Beyond The AI economy rewards leverage speed and clarity not technical mastery Pictory represents a new class of tools that allow beginners to compete with larger teams by combining automation storytelling and distribution Instead of fighting AI this course teaches you how to collaborate with it build trust with audiences and create assets that compound over time The goal is not just to help you use Pictory but to help you think like a modern AI powered creator and business builder *AI Video Generator - Flash* Navneet Singh, Table of Contents Introduction to AI Video Generation What is AI Video Generation Evolution of Video Creation Tools Introduction to
