The Iron Age, 1906 **Iron Age**, 1905 Cognitive Kin Christophe Kolb, Jan Rosen, 2026-03-10

Now that AI has a will it's up to us to find a way For decades we built software that did what it was told and nothing else

Agentic AI breaks this bargain systems that remember reason and pursue goals They arrive less like code and more like colleagues tireless fast and like any new hire occasionally in need of supervision In Cognitive Kin Christophe Kolb and Jan Rosen map the threshold where artificial intelligence stops being a feature and becomes a workforce Drawing on firsthand experience at the frontier of agentic AI they show how digital labor becomes viable why org charts give way to networks of intent and how leadership shifts to orchestration They translate the machinery memory feedback loops tool use into plain language then follow the shockwave into strategy culture and governance This isn't tomorrow's speculation It's a present tense transition that is reshaping the meaning of work and creating new sources of value The advantage will belong to firms that learn to think with thinking things working alongside intelligent systems without outsourcing judgment meaning or responsibility
