CEO it needed With humor and humility he recalls the mentors who showed him how to turn his passion into a business the competitors who became friends foes or both and the sharks that circled looking for weakness What emerges is the long term vision underpinning his success that technology is ultimately about people and their potential More than an honest portrait of a leader at a crossroads *Play Nice But Win* is a survival story proving that while anyone with technological insight and entrepreneurial zeal might build something great it takes a leader to build something that lasts
