The screenshot shows an AI writing assistant interface. At the top, there's a search bar with the text "What is the difference between a home's appraised and market value?". Below the search bar, there's a text box containing the following text:

Market value is the price that the average buyer is willing to pay for a property and is a subjective number.

Appraised value refers to the objective value of a home assigned by a licensed appraiser.

These numbers should be similar, but if not, you can contest.

Appraised value is a measure of market for a second opinion.

Overlaid on the text box is a sentiment analysis overlay with several emotion tags:
