**Immigrant Children and Youth** Alberto M. Bursztyn Ph.D., Carol Korn-Bursztyn, 2015-07-14 Immigrants now comprise one fourth of the 75 million children in the United States The ability of today's immigrant children to become productively engaged adults hinges on their internal resources and mental health This book ascertains their psychological challenges and their often misunderstood needs This book is intended to inform both the general public and professionals working with immigrant children and adolescents about the importance and complexity of addressing their psychological issues and experiential challenges The work covers the topic of immigrant children's mental health from multiple perspectives while maintaining a focus on developmental needs and identifying the specific problems posed by linguistic and cultural transition The chapters present case studies and vignettes that serve to illustrate the topics providing vivid depictions of mental health issues and highlighting the importance of specific interventions As new immigrant groups continue to settle in the United States the social and emotional well being of their children has far reaching implications for the future of our society making this volume of critical significance to therapists educators policymakers child advocates and other audiences

**Kids in Cages** Emily Ruehs-Navarro, Lina Caswell Muñoz, Sarah Diaz, 2024-11-05 In recent years the plight of immigrant children has been in the national spotlight A primary issue of concern is the experience of child migrants in detention by the U S government The authors in this volume approach the topic of child migrant detention from a range of perspectives Some authors particularly those who provide a legal perspective chronicle the harms of detention arguing that despite governmental assurances of child protection detention is fundamentally a state sanctioned form of violence The social scientists in the volume have worked closely with detained youth themselves in these chapters authors highlight the ways in which youth survive detention often through everyday acts of resistance and through the formation of temporary relationships Practitioners including psychologists activists and faith leaders look at forms of resistance to detention From retheorizing psychological interventions for detained youth to forming hospitality homes that act as alternatives to detention these practitioners highlight ways forward for advocates of youth At the heart of these narratives lies a crucial debate the tension between harm reduction strategies and abolition This interdisciplinary work brings together voices from the legal realm the academic world and the on the ground experiences of activists and practitioners Contributors Stella Akello Jessica Alaniz Aireen Grace Andal Samuel Arroyo Corey Brost Lina Caswell Mu oz Marisa Chumil Patricia Crowley Iman Dadras Sarah J Diaz Sandra Espinoza Jacqueline Florian Michael Gosch Darlene Gramigna Lisa Jacobs Katherine Kaufka Walts Corinne Kentor Jenn M Lilly Kathlyn Mulcahy Jennifer Nagda Vida Opoku Silvia Rodriguez Vega Emily Ruehs Navarro Herlin Soto Matute Luis Edward Tenorio Jajah Wu

**Child Welfare for the Twenty-first Century** Gerald P. Mallon, Peg McCartt Hess, 2014-09-09 The Adoption and Safe Families Act ASFA which became law in 1997 elicited a major shift in federal policy and thinking toward child welfare emphasizing children's safety permanency and well being over preserving biological ties at

all costs The first edition of this volume mapped the field of child welfare after ASFA s passage detailing the practices policies programs and research affected by the legislation s new attitude toward care This second edition highlights the continuously changing child welfare climate in the U S including content on the Fostering Connections Act of 2008 The authors have updated the text throughout drawing from real world case examples and data obtained from the national Child and Family Services Reviews and emerging empirically based practices They have also added chapters addressing child welfare workforce issues supervision and research and evaluation The volume is divided into four sections child and adolescent well being child and adolescent safety permanency for children and adolescents and systemic issues within services policies and programs Recognized scholars practitioners and policy makers discuss meaningful engagement with families particularly Latino families health care for children and youth including mental health care effective practices with LGBT youth and their families placement stability foster parent recruitment and retention and the challenges of working with immigrant children youth and families

**Undocumented and Unaccompanied** Cecilia Menjivar, Krista Perreira, 2021-11-29 This book focuses on the migration of undocumented minors arriving recently to the United States and the European Union flows that are often labeled undocumented illegal or irregular and due to their sudden increase they have been described in the media policy circles and scholarly work as a surge or a crisis Leading scholars examine the intricacies of the contexts that these minors encounter in the localities where they arrive including the legal and ethical frameworks for protecting unaccompanied minors governmental decisions about the best interests of the children these minors expressions of their own best interests or agency as they navigate immigration and social service systems conditions in detention centers and the health and social service needs in receiving communities Though definitions and techniques for counting unaccompanied migrant minors differ between the U S and the EU this book underscores the immigrant minors common vulnerabilities and strategies they adopt to protect themselves and improve their circumstances At the same time contributors to the volume highlight common challenges that both European and U S governments face as they develop policy strategies and legal mechanisms to attempt to balance the best interests of these children with national interests of the countries in which they settle The chapters in this book were originally published as a special issue of the Journal of Ethnic and Migration Studies

**Children in Immigrant Families Chart New Path** Mark Mather, 2009 The more than 16 million children in immigrant families defined as people under age 18 who are foreign born or who live with at least one foreign born parent are the fastest growing segment of America s youth and are leading a racial ethnic transformation of the U S population This report looks at these children where they live and how they are faring socioeconomically The parents status is key to their children s well being especially their English language skills educational levels and immigration history But outside factors including the public debate about immigration laws and policies also affect children in immigrant families

Book jacket Children in Immigrant Families in Eight Affluent Countries Donald James Hernandez, Suzanne E.

Macartney, Victoria Lael Blanchard, 2009 Among the critical knowledge gaps concerning children is a lack of systematic and validated evidence on the situation of children who have migrated with their parents While this gap exists for virtually all countries it is particularly striking for industrialized countries where data on children and families is otherwise generally complete This Innocenti Research Centre IRC study presents internationally comparable statistics on the family contexts in industrialized countries in which different groups of immigrant and native children live It is intended to promote a greater understanding of the situation of these children and the barriers to inclusion they may face and to make policy recommendations The research is complemented by a review of literature on the experiences of immigrant children outside the home their access to social services vulnerability situations of conflict with the law and inclusion and socialization in resident societies Sources of information include national censuses surveys and registration data as well as current literature from eight countries Australia France Germany Italy Netherlands Switzerland the United Kingdom and the United States

Young English Language Learners Eugene E. Garcia, Ellen C. Frede, 2010-07-30 It is well known that the number of non English speakers is on the rise in the United States What is less well known is that the largest proportion of this population is children under the age of 5 These young English language learners ELLs often demonstrate achievement gaps in basic math and reading skills when they start school How best to educate this important and growing preschool population is a pressing concern for policymakers and practitioners The chapters in this important book provide up to date syntheses of the research base for young ELLs on critical topics such as demographics development of bilingualism cognitive and neurological benefits of bilingualism and family relationships as well as classroom assessment and teacher preparation practices Each chapter reviews the research and answers the following questions What does the research clearly indicate for policy and practice How solid is this database and what findings are emerging What should the research agenda be for young ELLs *Harvard Latino Law Review*, 2006 **Symposium on Children and Immigration**, 2006 **Immigrant Kids** Russell Freedman, 1995-08-01 America meant freedom to the immigrants of the early 1900s but a freedom very different from what they expected Cities were crowded and jobs were scarce Children had to work selling newspapers delivering goods and laboring sweatshops In this touching book Newberry Medalist Russell Freedman offers a rare glimpse of what it meant to be a young newcomer to America Immigration, Both Sides of the Fence, 2007 *Leadership in Legal Education Symposium IX*, 2009 **Vocational Training, European Journal**, 2005 *Immigration Law*, 2008 **ABA Child Law Practice**, 2005 Immigrant Integration Nancy L. Valerie Polakow, 2007-04-13 Lack of access to affordable high quality child care is frequently the tipping point that catapults a family into poverty joblessness and homelessness Polakow presents the compelling stories of low income women from across the nation and chronicles their resilient struggles in the face of ongoing child care crises The resulting work is an incisive critique of public policy that

points to the shameful record of the United States in caring for its children Drawing on historical and international perspectives Polakow creates a groundbreaking analysis of child care as a human right persuasively arguing for a universal child care system Publisher description
