**Thinking Through Poetry** Marjorie Levinson, 2018-07-04 Thinking through Poetry Field Reports on Romantic Lyric pursues two goals The title signals the contribution to debates about reading Do we think through by means of with poems sympathetically elaborating their surfaces Is this compatible with a second meaning thinking through poems to their end solving a problem getting to its root its deep truth Third can we square these surface and depth readings with a speculative philosophical criticism to which the poem carries us where through denotes a going beyond All three meanings of through are in play throughout The subtitle applies field first to Romantic studies since the 1980s a field that this project reflects upon from beginning to end Examples are drawn especially from Wordsworth but also from Coleridge and in assessing Romanticism's afterlife from Stevens Field also characterizes the shift from a unitary to a field concept of form during that time span a shift pursued through prolonged engagement with Spinoza Field thus underscores the synthesis of form and history the importance of analytic scale to that synthesis and the displacement of entity text by relation as the object of investigation While the book historically connects early nineteenth century intellectual trends to twentieth and twenty first century scientific revolutions its focus is on introducing new models to literary criticism Unlike accounts of the influence of science on literature or various literature X approaches literature and ecology literature and cognitive science it constructs its object of inquiry in a way cognate with work in non humanities disciplines thus highlighting a certain unity to human knowledge The claim is that specialists in literature should think the way distinguished scientists think and vice versa

Roberts,2007-03-09 This study tackles the problem of the Song of Song s structure by beginning at the bottom the microstructure of the Song rather than at the top By employing a new type of rhetorical method Professor Roberts defines each of the minimal structural units of the Song by identifying the formal poetic features that mark its opening and closing coupled with the poetic features that create cohesion within it Moving up the Song s structural ladder larger units are identified with the same technique While this study does not identify an overall structure it does demonstrate how recognition of these formal structuring devices can help the interpreter define the structural units of the Song with far greater precision The final chapter presents a catalog of these formal poetic features that typically mark the opening and closure of structural units in the Song as well as those that effect cohesion Within is a catalog that can be refined and enlarged by application of the same method to other poetic texts Other exegetical insights abound Professor Roberts demonstrates a more highly structured pattern of the wasfs than has been recognized heretofore and proposes a new interpretation of the adjuration refrain He identifies a type of phonological anacrusis employed numerous times in the Song and addresses almost every text critical issue in the Song many of which are resolved by attention to poetic structuring devices **Apollinaire, Visual Poetry, and Art Criticism** Willard Bohn,1993 More than anything perhaps this volume strives to elucidate the concept of poesie critique which has received very little attention This omission is surprising since the genre influenced the Surrealist invention of poesie synthetique as well as many writers who followed Apollinaire trying to reconcile poetry and criticism *Contemporary Visual Poetry* Fiona Becket,2025-09-15 This book examines contemporary visual poetry and how conceptual writing poem objects and computational texts shape a posthumanist understanding that is situated First the eye is theorised with respect to ethical understanding When visual poets reclaim vision visual poetics becomes a feminist praxis In Paula Claire and Maggie O Sullivan visual poetry becomes an ecological practice concerned with connectivity in the entanglements of natureculture In O Sullivan Campanello Bergvall and Philip spatial and temporal sense de formation sustains radical forms of voicing and eyewitness Finally works by Mez Breeze and Stephanie Strickland
