Diplomacy in a Whirlpool Stephen Denis Kertesz,1953 *The American Catalogue* ,1908 [Turkish Foreign Policy, 1943-1945](#) Edward Weisband,2015-03-08 As it became evident that the Allies were winning World War II Turkish policy makers struggled to achieve their objectives in the shifting circumstances of wartime diplomacy Edward Weisband's detailed description of Turkish foreign policy from 1943 to 1945 reveals that it was complicated by the fact that its two principal aims dictated contradictory positions The first aim was the priority of peace over expansionism this implied a noninterventionist policy On the other hand the belief that the Soviet Union represented the primary threat to the security of the Republic often made intervention to contain Russia seem necessary for national defense Turkish officials became determined to influence the postwar settlement towards an equilibrium among the great powers that would limit Soviet expansionism which the Turks assumed they could not do alone Consequently they were among the first to envision the contours of the Cold War After outlining the historical origins of the ideology that lay behind Turkish diplomacy the first part of the book concentrates on the policy making process in Ankara and assesses the relative influence of individual leaders and institutions The second part analyzes both Turkey's responses to the exigencies of war and the general nature of small state diplomacy Originally published in 1973 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 [The American Catalogue ... Balancing the Protection of Foreign Investors and States Responses in the Post-Pandemic World Yulia Levashova, Pascale Accaoui Lorfing, 2022-05-11 The COVID 19 pandemic has brought the debate on reform of the international investment agreement regime to the fore with renewed force In this important and timely book top professionals in the field collectively offer an in depth investigation of the measures that States have taken or failed to take to deal with the pandemic's consequences and whether these actions or inactions can be construed as investment arbitration risks In an extensive overview of the impact of COVID 19 on States and investors including perspectives from UNCTAD the European Union the United States Russia India South Korea and the African Union this comprehensive guide on State defences and investor protection mechanisms tackles such aspects of the debate as the following as affected by the pandemic treatment of investors in times of pandemic and in the post pandemic world sufficient contribution to the economic development of the host State disparities in bargaining power and use of pandemic power to accord preferential treatment The final part of the book is dedicated to analysing case studies from around the world in the context of the pandemic and investor State disputes Understanding the way public health emergencies can shape international investment law is key to building a sustainable stable investment environment As the first detailed study of the post pandemic development of investment law this matchless collection takes a giant step toward reconciling the interests of foreign investors and sovereign States at various stages of economic development With practical recommendations for both States and investors it will be of immeasurable assistance to practitioners policymakers and academics in anticipating and dealing not only with COVID related measures but also with similar future contingencies

Ending the Troubles John M. Burney, Andrew J. Auge, 2024-10-29 In June 1996 the British government convened multiparty talks trying to establish peace within Northern Ireland after thirty years of bloody civil war based on religious cultural political and economic tensions known as The Troubles The talks included political parties from the two factions central to the conflict Unionists largely Protestants committed to retaining Northern Ireland within the United Kingdom and Nationalists largely Catholics committed to the reunification of Northern Ireland with the independent Republic of Ireland Fundamental questions on national identity and democracy quickly turned these proceedings into faction bickering thus failing to produce any substantive progress The emergence of new leaders in 1997 Tony Blair prime minister of Great Britain and Bertie Ahern taoiseach in the Republic of Ireland created an opportunity for reenergizing the talks chaired by the former US senator George Mitchell with all parties making a concerted effort to reach a viable resolution among Nationalists and Unionists In the game students will represent the major parties in Northern Ireland as they reconvene at the multiparty talks in 1997 to find ways to reconcile two

competing visions of Northern Irish nationalism or at least find a way for each community to tolerate one another's participation in a common constitutional arrangement. Much is at stake for another failure could lead to a full resumption of the civil war.

Environmental Politics for a Changing World Ronnie D. Lipschutz, Doreen Stabinsky, 2018-07-12 This book argues that environmental problems are first and foremost political and therefore about power. Using a framework of political economy and political ecology, the authors deconstruct current environmental problems to identify root causes and address those problems through mobilization of collective action and social power. The second edition also offers updated examples and stories of political struggles and the actors involved. Explicit attention to various forms of power in environmental politics including structural and social power. Local politics and collective action as related to global environmental politics. Discussion of emerging issues such as synthetic biology, commodification, and financialization of nature including carbon markets and geoengineering.

Social Sector Development and Governance Ramesh Chandra Das, 2023-06-28 This volume explores the impact of good governance upon social sectors' development in India and other selected economies of the world. Economic development in the true sense depends on the development of different social sectors like education, healthcare, gender equality, etc., as well as economic factors. Good governance makes the sectors perform well on the one hand and helps in economic growth and development on the other. Conversely, bad or weak governance in the form of corruption and low effectiveness of the governments may lead to poor performance of the sectors and low growth and backwardness of the economies. This book explores the associations between different social sectors' performances with quality of governance and growth and development of different economies and groups in detail and establishes theoretical and empirical examinations for the individual economies and groups from the different corners of the globe with the help of new theories and latest data. This book will be useful for students and researchers in the fields of Economics, Sociology, Political Studies, Public Finance, International Relations, Social Sciences, as well as policy makers and think tanks.
