Achieving Evidence-Based Practice Susan Hamer,Gill Collinson,2014-12-10 This title is directed primarily towards health care professionals outside of the United States This book provides a practical introduction to and overview of the development and implementation of evidence based practice It focuses on how to look for and appraise the available evidence how to apply the evidence using a variety of approaches and in different organisational contexts and how to understand different dimensions of personal and organisational change and its ethical components Numerous examples from practice and case studies clarify theory Very readable writing style and user friendly format with checklists of key issues Opportunities for reflective learning Update on current policy and regulatory frameworks Role of clinical governance in evidence based practice considered

Doing Educational Research Marit Honerød Hoveid,Lucian Ciolan,Angelika Paseka,Sofia Marques da Silva,2019-06-10 Every educational research project has challenges and obstacles that need to be managed and overcome This book uses real case

studies employing a wide range of research methodologies and drawn from educational contexts across Europe to explore these challenges offering flexible and universal guidance that you can apply to your own research Published in partnership with EERA this book is Realistic and informed It explores a range of perspectives on educational research from planning to data collection to international collaboration Challenging It integrates a holistic and critical view on the process of educational research Culturally aware It covers a variety of research projects from different countries and encourages you to challenge dominant perspectives in education This is the first major English language textbook for postgraduate and postdoctoral education researchers that represents and explores the range of research traditions that exist throughout Europe and what they mean in practice

Using Research For Effective Health Promotion Oliver, Sandy, Peersman, Greet, 2001-08-01 Well before evidence based practice became fashionable beyond clinical medicine the team at SSRU was telling us what we ought to already know that some interventions work better than others and that that some well meaning attempts at health promotion just like medicine and surgery may do harm This book is a must for policy makers and practitioners who want to make a real difference and understand how research evidence can inform their practice The book will also be an important tool for researchers who will increasingly be using the tools of systematic review if they want to inform and influence those who deliver services Helen Roberts Professor of Child Health City University This book bridges the gap between research and practice in health promotion It advances evidence based health promotion by illustrating how service providers and researchers can change their working practices to benefit the public It addresses the need for health promotion services to be grounded in empirical research and for research to focus on issues important to those delivering as well as those receiving the services Using Research for Effective Health Promotion advances the debate about the relative values of qualitative and experimental research in health promotion and encourages an increased participation of service users in the development and evaluation of services It provides health promotion specialists with time saving tools to draw upon research quickly and critically and is an important resource for students and professionals in fields such as public health nursing education social work and voluntary services

An Introduction to Systematic Reviews David Gough, Sandy Oliver, James Thomas, 2012-03-22 This timely engaging book provides an overview of the nature logic diversity and process of undertaking systematic reviews as part of evidence informed decision making A focused accessible and technically up to date book it covers the full breadth of approaches to reviews from statistical meta analysis to meta ethnography It is ideal for anyone undertaking their own systematic review providing all the necessary conceptual and technical background needed to make a good start on the process The content is divided into five clear sections Approaches to reviewing Getting started Gathering and describing research Appraising and synthesising data Making use of reviews models of research use Easy to read and logically structured this book is essential reading for anyone doing systematic reviews David Gough is Professor of Evidence Informed Policy and Practice and Director of SSRU and its EPPI Centre and Co

Editor of the journal Evidence Policy Sandy Oliver is Professor of Public Policy and Deputy Director of SSRU and its EPPI Centre James Thomas is Reader in Social Policy Assistant Director of SSRU and Associate Director of the EPPI Centre

Handbook for conducting assessments of barriers to effective coverage with health services Theadora Swift

KOLLER,2024-06-25 According to the most recent data available 4.5 billion people were not fully covered by essential health services in their countries in 2021 Likewise in 2019 the total population experiencing financial hardship was estimated to be 2 billion people To scale up action to leave no one behind WHO's Fourteenth General Programme of Work 2025-2028 GPW 14 has an explicit and strong commitment to equity In support of this WHO has released a handbook with methods for the identification of barriers to effective coverage with health services The 8 module handbook applies mixed method research approaches grounded in the Tanahashi framework for effective coverage to focus on barriers experienced by potential users and non users of health services The handbook facilitates the capturing of evidence on the interface between the population and the services The handbook has four objectives 1 To orient national authorities and partners on key concepts definitions frameworks and principles relevant to barriers assessments 2 To build the capacity of national authorities and partners to design a research plan and apply diverse methods e.g informant interviews literature reviews quantitative analysis and focus groups in barriers assessments 3 To provide guidance for reporting on barrier assessment findings in a clear and actionable manner and convening key stakeholders to deliberate next steps 4 To adapt the methods for humanitarian contexts accounting for the need for differentiated approaches

Tandon's Textbook of Cardiology Dorairaj Prabhakaran,Raman

Krishna Kumar,Nitish Naik,2019-01-17 An authoritative comprehensive and accessible cardiology textbook that caters to the needs of trainees and practicing cardiologists Cardiovascular disease is now the largest contributor to global mortality Low and middle income countries Lmics presently bear the brunt of this global epidemic accounting for over three quarters of cardiovascular deaths and 90% of these deaths under 70 years of age The experience and expertise of health professionals in these countries will therefore be the principal determinant of global success in countering and curbing the global cardiovascular epidemic in the coming decades This book covers the fundamentals of cardiology in depth to provide conceptual clarity and delves into specific cardiovascular disorders with detailed descriptions that range from aetiology and pathophysiology to evidence informed approaches to diagnosis and management It does all of this by blending contextual relevance with uncompromising academic rigor

Doing a Literature Review in Health and Social Care Helen

Aveyard,2010-05-01 This book is superb Most undergraduates have to undertake some form of literature review which may be daunting this book explains it in an clear easy to understand format Explanations are given as to why undertaking a literature review is undertaken Summery sections at the end of each chapter allow the reader to reflect on what they have just read allowing the information to sink in This book should be on every university's recommended reading list Kerry Davis Student Nurse University Campus Suffolk UK This book is fantastic It gives a clear concise guide to carrying out a literature

review which is of course a widely used formative assessment technique in a nursing program it includes in depth explanations and reasons as to how and why it is important to do a literature review the summary section at the end of each chapter is excellent and allows the reader to review their understanding of what they re just read Overall an excellent book which is a must for any student nurse Gem Smith Student Nurse Northumbria University UK This book is superb It explains the entire process of writing a literature review very clearly extremely helpful as the prospect of reviewing literature can be quite daunting Vicky Bain Student Nurse University of Nottingham UK A comprehensive easy to read guide which will help students to understand how to undertake a literature review and how to use the resultant information effectively Anne Marie Warnes University of Central Lancashire UK As a student currently writing a literature review I found this an extremely helpful book which is invaluable in demystifying some of the more challenging elements while at the same time providing clear simple appealing and appropriate guidance This is a must have for undergraduate nursing students and indeed all healthcare students embarking on such projects Audrey Grace Trinity College Dublin Dublin Ireland This bestselling book is a step by step guide to doing a literature review in health and social care It is vital reading for all those undertaking their undergraduate or postgraduate dissertation or any research module which involves a literature review The new edition has been fully updated and provides a practical guide to the different types of literature that you may come across when undertaking a literature review It includes Examples of commonly occurring real life scenarios encountered by students Emphasis on the importance of setting a question at the very start of the project Advice on how to follow a clearly defined search strategy Details of a wide range of critical appraisal tools Doing a Literature Review in Health and Social Care 2 e is essential reading for students at all levels within the health and social care field and a useful text for anyone new to reviewing and appraising evidence

How To Do A Systematic Literature Review In Nursing: A Step-By-Step Guide

Bettany-Saltikov, Josette, 2012-05-01 This is an excellent book which explains clearly the principles and practice of systematic reviews The order of contents is logical information is easy to find and the contents are written for a wide audience from student to practitioner There are copious examples and illustrations and these should inspire confidence in the novice and remind the expert what the essential features of a good systematic review are This book should be on every undergraduate and postgraduate reading list for courses on research methods Roger Watson Professor of Nursing The University of Hull UK This book provides a clear and concise guide for students to produce a systematic review of evidence in health care The material is presented as a logical series of steps starting with developing a focussed question up to completing the review and disseminating its findings To facilitate the review a number of blank forms are presented for the reader to copy and complete in relation to the topic which they are pursuing I would wholly recommend this text Ian Atkinson previously Senior Lecturer in Research Methods Assistant Editor Journal of Clinical Nursing Does the idea of writing a systematic literature review feel daunting Are you struggling to work out where to begin By walking you carefully through the entire process from

start to finish and breaking the task down into manageable steps this book is the perfect workbook companion for students undertaking their first literature review for study or clinical practice improvement Co published with the Nursing Standard this handy book Goes into detail about the precise and practical steps required to carry out a systematic literature review Uses a workbook format with 3 running examples that you can work through gradually as you carry out your review Offers suggestions and tips to help you write up your own review Features useful templates to help you stay organised and includes case studies to identify good practice Highlights the pitfalls to avoid Written in an engaging conversational style with clear explanations throughout How to do a Systematic Literature Review in Nursing is invaluable reading for all nursing students as well as other healthcare professionals
