Electricity from Sunlight Vasilis M. Fthenakis, Paul A. Lynn, 2018-03-19 Praised for its visual appeal conversational style and clear explanation of complex ideas with minimal mathematics Electricity from Sunlight has been thoroughly revised and updated to reflect advances in the global PV market economics and installed capacity Key features of the 2nd edition include A timely update of the advances of photovoltaics PV with major new material on grid connected systems More in depth treatment of PV scientific principles solar cells modules and systems Up to date coverage of the PV market including conversion efficiencies and the expansion of grid friendly power plants End of chapter problems with solutions manual available to instructors via companion website Additional end of chapter questions and answers to support students through guided self study New chapters on manufacturing processes and on materials and other resources availability New large scale PV section covering the growth of global capacity utility scale PV and affordable solutions for intermittency Systems analysis of new applications empowered by low cost PV such as energy storage and water desalination Significantly expanded economics and environmental section explaining leveled cost of electricity versus upfront costs energy return on investments and lifecycle analysis Electricity from Sunlight Photovoltaics Systems Integration and Sustainability Second Edition is an essential primer for new entrants to the PV industry needing a basic appreciation of complete PV systems and to students on undergraduate and graduate courses on renewable energy and photovoltaics It also offers a unique treatise of the sustainability of emerging transformative technologies which makes it useful to both system analysts and energy policy strategists Co author Vasilis Fthenakis is Recipient of the 2018 William R Cherry Award The Cherry Award recognizes an individual engineer or scientist who has made a significant contribution to the advancement of the science and technology of photovoltaic energy conversion with dissemination by substantial publications and presentations Fthenakis was honored for his pioneering research at the interface of energy and the environment that catalyzed photovoltaic technology advancement and deployment world wide Climate Change Gr. 5-8 , Data Feminism Catherine D'Ignazio, Lauren F. Klein, 2023-10-03 Cutting edge strategies for thinking about data science and data ethics through an intersectional feminist lens Without ever finger wagging Data Feminism reveals inequities and offers a way out of a broken system in which the numbers are allowed to lie WIRED Today data science is a form of power It has been used to expose injustice improve health outcomes and topple governments But it has also been used to discriminate police and surveil This potential for good on the one hand and harm on the other makes it essential to ask Data science by whom Data science for whom Data science with whose interests in mind The narratives around big data and data science are overwhelmingly white male and techno heroic In Data Feminism Catherine D Ignazio and Lauren Klein present a new way of thinking about data science and data ethics one that is informed by intersectional feminist thought Illustrating data feminism in action D Ignazio and Klein show how challenges to the male female binary can help challenge other hierarchical and empirically wrong classification systems They explain how for

example an understanding of emotion can expand our ideas about effective data visualization and how the concept of invisible labor can expose the significant human efforts required by our automated systems And they show why the data never ever speak for themselves Data Feminism offers strategies for data scientists seeking to learn how feminism can help them work toward justice and for feminists who want to focus their efforts on the growing field of data science But Data Feminism is about much more than gender It is about power about who has it and who doesn't and about how those differentials of power can be challenged and changed American More!
