

History of Evolution

1. Classical Rhetoric:

- Originated in Ancient Greece and Rome, rhetoric was seen as an essential skill for politicians, philosophers, and leaders.
- Early rhetorical theories (e.g., Aristotle's Rhetoric) emphasized persuasion through speech, where mastery of words, logic, and performance was key.
- It relied on three main elements: ethos (character), pathos (emotion), and logos (reason). These formed the foundation of the rhetorical tradition, shaping political, legal, and philosophical discourse.
- The absence of technology meant that orators had to command the attention of their audience using memory, voice, and physical presence. Dissemination of their ideas was limited to live settings or manual transcriptions.
