Instructional Design for LIS Professionals Melissa A. Wong, 2019-05-03. A concise practical guide to effectively teaching current and future librarians in graduate programs, professional settings, and beyond. Many librarians are thrust into positions where they are asked to teach colleagues. Others choose to share their knowledge and experience by preparing the next generation of librarians in graduate programs. However, few such librarians have received any formal education in instructional design. In this book, Melissa A. Wong, an expert instructional designer, helps information professionals to prepare for their roles as teachers of current and future librarians. Covering topics that range from syllabus construction to evaluation and student feedback, the book offers practical guidance on how to communicate with and support learners and how to come up with assignments and grade them, along with advice on accessibility issues and working with technologies such as LMS, OER, videos, and PowerPoint. It demonstrates how to adapt principles of effective teaching to settings including workshops, professional development courses, conference presentations, and staff training. It also discusses professional challenges such as managing workload and shows how to adapt formal coursework to informal teaching situations. Librarians who wish to learn new methods or improve on their teaching and course design skills should read this book.

[Blogs, Wikis, Podcasts, and Other Powerful Web Tools for Classrooms](#) Will Richardson, 2006-03-13. We need a solid book explaining and illustrating and letting teachers know about these powerful tools. This book meets the need in an awesome way. Mike Muir, Director, Maine Center for Meaningful Engaged Learning. This author is a gem. It startles me to be pulled so happily through a text about these new Web tools in the context of good literacy instruction. Gary Graves, Senior Research and Evaluation Advisor, Technology in Education Northwest Regional Educational Laboratory. This book brings teachers a bold vision and, on the ground, Monday-morning practicality. It will move educators to think differently about technology's potential for strengthening students' critical thinking, writing, reflection, and interactive learning. Will Richardson demystifies words like blog, wiki, and aggregator, making classroom technology an easily accessible component of classroom research, writing, and learning. This guide demonstrates how Web tools can generate exciting new learning formats and explains how to apply these tools in the classroom to engage all students in a new world of synchronous information feeds and interactive learning. With detailed, simple explanations, definitions, and how-to's, critical information on Internet safety, and helpful links, this exciting book opens an immense toolbox with specific teaching applications for: o Web logs, the most widely adopted tool of the read-write Web; o Wikis, a collaborative

Webpace for sharing published content o Rich Site Summary RSS feeding specific content into the classroom o Aggregators collecting content generated via the RSS feed o Social bookmarking archiving specific Web addresses o Online photo galleries This book makes it possible for anyone no matter how inexperienced to harness this amazing technology for the classroom today
