Sadler, 1994 *The History of Oxford University Press: Volume IV* Keith Robbins, 2017-05-19 The story of Oxford University Press spans five centuries of printing and publishing Beginning with the first presses set up in Oxford in the fifteenth century and the later establishment of a university printing house it leads through the publication of bibles scholarly works and the Oxford English Dictionary to a twentieth century expansion that created the largest university press in the world playing a part in research education and language learning in more than 50 countries With access to extensive archives the four volume History of OUP traces the impact of long term changes in printing technology and the business of publishing It also considers the effects of wider trends in education reading and scholarship in international trade and the spreading influence of the English language and in cultural and social history both in Oxford and through its presence around the world In the decades after 1970 Oxford University Press met new challenges but also a period of unprecedented growth In this concluding volume Keith Robbins and 21 expert contributors assess OUP's changing structure its academic mission and its business operations through years of economic turbulence and continuous technological change The Press repositioned itself after 1970 it brought its London Business to Oxford closed its Printing House and rapidly developed new publishing for English language teaching in regions far beyond its traditional markets Yet in an increasingly competitive worldwide industry OUP remained the department of a major British university sharing its commitment to excellence in scholarship and education The resulting opportunities and sometimes tensions are traced here through detailed consideration of OUP's business decisions the vast range of its publications and the dynamic role of its overseas offices Concluding in 2004 with new forms of digital publishing The History of OUP sheds new light on the cultural educational and business life of the English speaking world in the late twentieth century

**Free Association** Steven Sidley, 2017-04-19 Max Lurie's navel gazing podcast about his life has become an unexpected success But its embellishments and inventions are starting to leak into his everyday life As Max tries to navigate the grey areas between fact and fiction things begin to spin out of control He juggles real and imagined girlfriends an illegally procured firearm an unpredictable friendship with a homeless schizophrenic his acerbic immigrant producer his dying father his famous childhood sweetheart

an unlikely romantic entanglement and his critical and growing audience Can he keep all of these balls in the air and finally bring them safely to rest This story takes a deep and satiric dive into the worlds we imagine for ourselves and the lives we actually live particularly in a time when our real and digital personas intersect and merge in chaotic ways Free Association casts a steely and comic eye on the great and small concerns of being human the chances we take and miss the pain of not fitting in the fragility of the psyche the unpredictability of love the dull certainty of death the importance of listening to others and the careening craziness of it all
