Basic Java Interview Questions And Answers

1. Why is the main method static ?
Ans: So that it can be invoked without creating an instance of that class

2. What is the difference between class variable, member variable and automatic(local) variable ?
Ans: - class variable is a static variable and does not belong to instance of class but rather shared across all the instances
- member variable belongs to a particular instance of class and can be called from any method of the class
- automatic or local variable is created on entry to a method and has only method scope

3. When are static and non static variables of the class initialized ?
Ans: The static variables are initialized when the class is loaded Non static variables are initialized just before the constructor is called

4. When are automatic variable initialized ?
Ans: Automatic variable have to be initialized explicitly

Ans: This operator gives the value which is related to the remainder of a division e.g x=7%4 gives remainder 3 as an answer

7. What is garbage collection ?
Ans: The runtime system keeps track of the memory that is allocated and is able to determine whether that memory is still useable. This work is usually done in background by a low-priority thread that is referred to as garbage collector. When the gc finds memory that is no longer accessible from any live thread it takes steps to release it back to the heap for reuse

8. Does System.gc and Runtime.gc() guarantee garbage collection ?
Ans: No
